VICTORIA, B. C., MONDAY, NOVEMBER 10, 1913

NO. 111

Huerta to Continue as Dictator Wilson at Washington Marks Time

CLEAR ATMOSPHERE AFTER SUNDAY TALK

No Address to Congress or
Time Limit Set for Mexi-
can Reply

Interim Report Sent to British
Government on Ne-
gotiations

Washington, D. C., Nov. 10.—President Wilson discussed the Mexican situation to-day and cleared the atmosphere of any reports as to the intentions of the United States. He made it clear that he had no intention at present of addressing congress, because the situation was not in shape for him to have anything to say, and while certain representations had been made to the Huerta government, no reply had been received. He declared that no time limit had been set for a reply from Huerta.

The president told inquirers he was not ready to discuss recognition of the constitutionalists and that his opposition to raising the embargo on arms had not changed.

Contrary to his usual custom of putting aside official business on Sunday, President Wilson worked all day yesterday on the Mexican problem. He summoned Senators Borah and McCumber, Republican members of the senate foreign relations committee, yesterday afternoon, and discussed the situation with them for almost two hours. He had a conference with Secretary Bryan last night.

London, Nov. 10.—Walter H. Page, United States ambassador, to-day presented to the British foreign office another message from President Wilson, the general effect of which is that under no circumstances will the president recognize Provisional President Huerta or any of his acts.

President Wilson's message is regarded here as in the nature of an interim report not calling for a reply. Great Britain therefore awaits a more definite pronouncement from President Wilson setting forth precisely the steps he purposes to take to enforce his policy before sending a formal reply.

The British officials are inclined to resent what they term the persistent misrepresentation of Great Britain's attitude current in the United States. They deny that any British money has been advanced to support Provisional President Huerta.

Late this afternoon a telegram was received at the British foreign office from Washington giving an outline of the policy expected to be followed by the United States in the event of the continuance of Provisional President Huerta's present attitude.

Complete reticence was observed by the officials of the foreign office as to the contents of the dispatch.

LEGISLATURE DISSOLVED BY ANTONIO RABAGO

Members at Tamaulipas Disappear
Presumably to Join the
Rebels.

Mexico City, Nov. 10.—The state legislature of Tamaulipas was dissolved to-day by order of the military governor-general, Antonio Rabago. None of the deputies were arrested. General Rabago remains the only representative of the federal government in that state. Dispatches received here state that according to General Rabago the lower house was in a condition of disintegration, most of the members having disappeared, presumably to join the rebel forces.

TAME LION CAUSES SOME CONSTERNATION

Portland, Ore., Nov. 10.—For more than an hour yesterday Leo, a big lion at Washington park, enjoyed his liberty while park employees worked frantically to recapture him and consternation reigned among visitors to the park. The lion was cornered in a passage between two buildings, and the ends were boarded up. Leo was dragged into his cage with ropes. He escaped once before fourteen years ago.

HAYWOOD IS FREED.

Trenton, N. J., Nov. 10.—The state Supreme Court here to-day set aside the conviction of William Haywood, who with two others connected with the I. W. W. was convicted of a charge of being disorderly persons, in connection with the recent strike of the Paterson silk workers.

The silent man in Mexico who now recommends that diplomatic negotiations end.

HUERTA CONSPICUOUS IN CAFES OF CAPITAL

Feeling is Strong in Mexico City; Lind
Continues His Observations.

Mexico City, Nov. 10.—John Lind, who represents the president of the United States, is ignorant of the intentions of his chief.

More uneasiness is apparent at the American embassy than at the national palace. At the palace the opinion was freely expressed, not infrequently accompanied by sneers, that the United States would not intervene in Mexico.

Mr. Lind is fully cognizant of the delicate situation and awaits with keen interest word from President Wilson and Secretary Bryan, but he has received only assurance that the president was interested in certain developments, and a request that he continue his observations.

Mr. Lind expressed the view that the present policy would not be continued for many days. It is known here that he has recommended that all diplomatic negotiations with Mexico be terminated.

If General Huerta is anxious regarding what may develop he does not betray it. Although he has sent to the diplomatic representatives of the foreign nations a note which, in effect, is a defiance of Washington, he was conspicuous in the cafes about town long after midnight, and indulged yesterday in relaxation in the company of his military friends.

MILITIAMEN FIRED AT IN COLORADO STRIKE

General Search for Weapons Con-
tinues; Grand Jury to
Be Called.

Trinidad, Colo., Nov. 10.—A small detachment of militiamen under Captain Householder were fired on from ambush early to-day while en route to Segundo to investigate the blowing up of the pipe-line between Segundo and Primero last night. The troops charged in the direction of the shots but their assailants escaped.

To-day troops entirely surrounded Old Segundo and Aguilar, where the general search for weapons was continued.

Alex Santos, a fireman at Starkville, was called from his home late last night and beaten by a crowd of strikers, according to reports received here. District Judge A. W. McHendrie to-day placed in the hands of Sheriff H. S. Chrisman a venire for a grand jury returnable December 1. The grand jury is expected to make a rigid investigation of several recent killings.

LABOR MEN CONVENE AT 33RD CONVENTION

Seattle, Nov. 10.—With more than 300 accredited delegates in attendance and President Samuel Gompers in the chair, the thirty-third annual convention of the American Federation of Labor was formally opened at 10 o'clock this morning at the Hippodrome.

Governor Lister, on behalf of the state of Washington, tendered the visiting delegates a formal welcome. The mayor performed a similar function for the city.

The feature of the day is the monster parade, headed by the largest band ever assembled in the west.

MEXICAN CONGRESS TO BE CALLED SOON

Executive Will Continue to
Exert Himself for Pacifica-
tion of Republic

Elections to Be Declared Void
Will Leave Huerta Still
in Command

Mexico City, Nov. 10.—In a formal note yesterday to the foreign diplomats, General Huerta, after calling attention to the efforts he had made to pacify the country and dwelling at length upon his reasons for dissolving congress, makes the direct statement that the newly-elected congress will be installed within a few days and will pass upon the elections of the president and vice-president.

General Huerta reminds the diplomats that prior to the elections he told them that neither he nor General Blanco would accept an election on the ground that his own election would be illegal, and he calls to the attention of the diplomatic representatives the conference he had with the presidential candidates at which he obtained their promise to abide by the result of the elections, even should no one obtain the necessary number of votes.

"Now, in view of the fact, according to the reports which the government has received," continued the note, "that there exists an earnest presumption that, because it has been impossible to carry on voting in the number of polling places prescribed by law, the elections will be considered a true manifestation of the will of the people, and because it is foreseen that said presidential elections will be declared null, the executive wishes to make known once more to the country and the whole world that in accord with this determination he shall continue exerting himself for the pacification of the country, in order to be able to guarantee absolute freedom and efficiency in the new elections which congress must call as a necessary consequence of that declaration."

In the same manner he wishes to make known once more to his friends and those outside the republic that being regardless of the law and persuaded that by virtue of his having occupied the post of president of the republic in which the elections were being held, he considers himself constitutionally impeded from being re-elected, and he will on no account take into consideration the vote which may have been cast in his favor, and no matter what may be the resolution of congress he will not accept in this case the constitutional presidency of the republic.

"This programme consists of peace and legality, which are the only mediums in which elections may become an expression of the popular will and in which the individual, native as well as foreign, may enjoy full guarantees. Only under such conditions can economic development in the republic permit all social classes to gather the fruits of their labor and the product of their capital."

General Huerta's declaration is praised to-day by the Mexican press. The newspapers declared that his stand meets with the approval of the Mexican people.

El Independiente, under the caption: "Huerta is the only man capable of solving the situation," points to the alleged favorable attitude of Europe and to the press criticism of President Wilson's policy.

El Independiente prints extracts from London, Berlin, Paris and New York newspapers and also quotes parts of the speech made by Henry Lane Wilson made at Cleveland November 8, when the former American ambassador criticized the policy of the Washington government.

METHODIST MISSIONS IN 1912 SPEND \$2,300,000

Decatur, Ill., Nov. 10.—Charges made by Dr. Keshava Dava Shastri, of Benares, India, at the Minneapolis Purify Congress meeting, to the effect that missionaries in India lived in luxury and failed to secure converts, were vigorously denied by missionaries of the Methodist Episcopal church in the opening session of their annual convention here to-day.

Twenty-six bishops, and more than 100 laymen from many parts of the world are in attendance. In the annual treasurer's report made at the opening session it was shown that \$2,300,000 was spent for Methodist missionary work during the last year.

CHINESE LOAN SIGNED.

Peking, Nov. 10.—The Sino-French Bank to-day signed a contract for a loan to the Chinese government of \$20,000,000.

BORDEN GOES SOUTH TO DODGE WORRIES

Party Leadership Too Much
for Prime Minister's
Health

SIX WEEKS' REST BY
ORDERS OF DOCTOR

Believed He Would Gladly Re-
sign but Who Would
Succeed Him?

CABINET BICKERINGS
SOUTH BRUCE DEFEAT

Ottawa, Nov. 8.—The sudden departure of Premier Borden for a six-weeks' rest in the Southern States is on doctor's orders. The Premier's health has suffered severely during his two years of office, consequent upon the constant stress and worry of party leadership under peculiarly embarrassing and unsatisfactory conditions. Insomnia and nervous breakdown have made it imperative for him to seek refuge from the troubles and importunities of office, with a view to recuperating so as to be in condition for what promises to be for the government a most trying session of parliament. His destination is not officially announced, in order that he may be assured of as much rest as possible. It is understood, however, that he will spend some time at Hot Springs, Virginia, where the going is good. During his absence from the capital Hon. Geo. E. Foster will be acting Premier.

Belief He Would Gladly Resign.

The Prime Minister had a six-weeks' holiday early in the summer at St. Andrew's, N. B. This second prolonged absence from the Capital, when belated seasonal preparations should occupy the time of the cabinet, emphasizes a belief that finds frequent expression in political circles here, that belief is that Mr. Borden would gladly resign the post of premier and accept the resignation of the care of the country to a younger man of party leadership. It is certain that he has little zest for the political game as it is being played by his present colleagues.

Many Causes of Worry.
Lack of harmony within the party, cabinet bickerings and jealousies, the necessity for political side-stepping and trimming to satisfy conflicting elements of the country, the lack of support from the government, the lack of popular and of loyal support within the cabinet, and the growing signs of popular and of party disfavor with the present administration, all harass and worry the Premier. The result in South Bruce has caused him further worry in the form of complaints and protests and conflicting advice from the Conservative ranks in all parts of the country.

Speculation on Possible Successor.
He has temporarily escaped from it all, but the real cause of his physical ills will again meet him on his return. Conservative leaders here are already speculating as to how long he can stand the strain, and who could be brought in to succeed him. To the latter query there is no other acceptable leader in sight, even as a compromise. Hon. Robert Rogers, Sir Richard McBride and Hon. Geo. E. Foster are the three men most prominently suggested.

Rogers and McBride.

To Mr. Rogers there is the obvious objection. Sir Richard McBride's stock is not nearly so high as it was. Moreover, his ambitions are now directed towards British politics. He will probably leave the British Columbia premiership to Hon. W. J. Bowser, the present Attorney-General, during the coming year, and espouse the cause of a rejuvenated Chamberlain-Unionist school of politics in Great Britain. That is the secret of his recent flag-waving speeches on the naval question in Ottawa and Toronto on his return from England.

Mr. Foster Most Probable.

Hon. Geo. E. Foster, who is now playing a sort of lonely furrow within the cabinet lines, is at present the most likely man in sight as a temporary leader if Mr. Borden is forced to drop out. In that case history is likely to repeat itself. Mr. Foster knows what happened to Sir Mackenzie Bowell in 1896.

Mr. White Too New.

Hon. W. T. White also has ambitions, but the general opinion among Conservatives here is that he is too new a recruit to the party fold, and has yet much to learn in politics before he can be accepted as a leader.

State of Unpreparedness.
Meanwhile, parliament is due to meet two months hence, with no preparations as to seasonal legislative programme yet made, with the estimates still untouched, with the Premier off until nearly Christmas, and with various other ministers planning more absences from the capital.

Corruption Admitted in Macdonald Morrison's Election Declared Void

EAST OF MISSISSIPPI STATES STORM SWEEP

Wind and Snow From Great Lakes to Kentucky Damage
Property; Blizzard Strikes Buffalo To-day; Trains Run-
ning Seven Hours Late; Extraordinary Snowfall in
Ohio; Scores of Towns Darkened and Without
Street Car Service; Fatalities Are Few

Chicago, Nov. 10.—Telegraph service in certain sections of the country is demoralized as the result of storms yesterday. The damage to property of the telegraph companies is estimated at several hundred thousand dollars.

The most serious condition was reported from Ohio and Pennsylvania, which were swept by a wind and sleet storm that carried down hundreds of miles of wire.

Damage done by a tremendous surf along the lake shore, driven in by the fifty-mile gale, is estimated at hundreds of thousands of dollars during the last twenty-four hours. Two deaths were reported here. Antoine Zupays and an unidentified man were blown into the Chicago river at different points and drowned. The schooner C. J. Buoy, laden with lumber, which was in distress off the harbor, rode out the gale in safety and was towed into port to-day by tug.

From the Atlantic coast to the Mississippi river, and from the Mackinac to Kentucky, the eastern part of the United States was ravaged by the storm. Snow and pitiless wind were everywhere reported, except that in the vicinity of New York it rained.

Railway traffic was impeded. Through trains ran hours behind schedule in western Pennsylvania and in Ohio, and local passenger trains in many instances were annulled or re-routed.

Buffalo, N. Y., Nov. 10.—The blizzard that has gripped the middle west for twenty-four hours arrived early to-day. The city awoke to face a seventy-mile-an-hour gale that drove before it clouds of snow and sleet. Trains from the storm centre west of here came in covered with ice and from three to seven hours late.

No boats were sighted off the harbor to-day and the wireless has been unable to pick up any steamers on Lake Erie for twenty-four hours, so it was believed that ample warning of the storm had sent all shipping to a safe anchorage. It was reported from Long Point, Ont., that the steamer El Phicke, which ran ashore three weeks ago, was rapidly pounding to pieces. Reports of another vessel in distress in that vicinity could not be confirmed.

Pittsburg, Pa., Nov. 10.—A snow, sleet and wind storm swept West Virginia, a large portion of Ohio and western and northern Pennsylvania yesterday, crippling transportation and seri-

MEDELL BEILISS IS ACQUITTED BY JURY

Kiev, Nov. 10.—Mendel Beiliss was acquitted by the jury to-day.

The trial of Mendel Beiliss, a Russian of the Hebrew faith, for the alleged murder for purposes of "blood ritual" of Andrew Yushinsky, a Christian lad, began on October 8.

The case caused an immense sensation which startled the whole of Russia. The mutilated body of Yushinsky was discovered on March 25, 1911, in a cave on a suburban holding outside Kiev. The hands were bound behind the back and there were forty wounds on the body. Beiliss was arrested shortly afterward and charged with the murder and was kept in close confinement till the trial.

During the hearing many medical experts testified, their opinion varying as to the reason for the crime. Other witnesses threw suspicion on a woman, Vera Tschelbrak, alleged to be the harbinger of a band of criminals.

Extensive precautions were taken by the authorities to prevent threatened outrages by members of a society of anti-Semite Russians known as the Black Hundred, the vicinity of the court being surrounded by hundreds of troops during the latter days of the trial.

LONELY TRIBE FOUND.

St. Catharines, Ont., Nov. 10.—Rev. C. E. Whitaker, a missionary at Fort McPherson, says that on the islands of the coast at McKenzie River there is a tribe of 200 people who have never been visited by white people. The missionaries had a glimpse of them but never reached them. An expedition formed last year to go there failed because food supplies ran out, but another expedition is being planned.

FORMAL ORDER OF COURT IS ISSUED

Cross Petition Against Liberal
Withdrawn for Lack
of Facts

Report to Speaker Within Four
Days Declaring Bye-
Election Void

Winnipeg, Nov. 10.—Chief Justice Howell and Mr. Justice Cameron, sitting this morning as a tribunal under the Dominion Contraverted Elections Act, made an order declaring void the Macdonald bye-election, held on October 12 last year, declaring that Alexander Morrison, the Conservative candidate, who led the voting by a majority of over seven hundred, had not been duly elected, and declaring that Andrew W. Myles and John E. Woods, the petitioners, were entitled to the general costs of the action. The court will make a report to the Speaker of the Commons within four days, as required by the law.

The proceedings of the court were of a formal character, counsel for Mr. Morrison having filed an admission that during the campaign his agents had been guilty of corrupt practices and the principal point under discussion was "should the court assume from this admission in making its report that it had reason to believe that corrupt practices had extensively prevailed."

A. J. Andrews, counsel for Morrison, with F. M. Burbridge, would only concede that the offences were not of a trivial or unimportant character, and the court gave no indication of the nature of the report it would make.

A. B. Hudson, counsel for the petitioners, with E. A. Swift, admitted that Mr. Morrison was not guilty personally of corrupt practices within the meaning of the Elections act.

Mr. Morrison announced that the cross petition against R. L. Richardson, the unsuccessful candidate, had been withdrawn and that a canvass of the situation had failed to elicit any evidence of personal corruption on his part.

Mr. Richardson, who was not a candidate, had been withdrawn and that a canvass of the situation had failed to elicit any evidence of personal corruption on his part.

RICHELIEU CASE WILL PROCEED NOW TO TRIAL

Ottawa, Ont., Nov. 10.—As the result of a judgment given this morning by the Supreme court, the protest against P. J. A. Cardin, Liberal member for Richelieu, can be proceeded with on its merits. The lower courts threw out the petition, but the Supreme court this morning sustained the appeal taken against the judgment on the preliminary objections with costs, with the result that the case can now be proceeded with. Mr. Cardin was elected over B. A. D. Morgan, Conservative, at a bye-election.

DUCHESSE DE TALLYRAND HAS MATRIMONIAL WORRY

Paris, Nov. 10.—Duchess de Tallyrand, who was Miss Anna Gould, of New York, is protesting vigorously against the expected decision of the Holy Tribunal of Rome in Rome that her marriage to Count Boni de Castellane was null and void because when she married him she had an idea of possible divorce in her mind. Such a decision would give their sons into their father's care. The duchess, whose second husband is de Castellane's cousin, will go to Rome next week to appear before the Tribunal of Rome.

ENACTING MOVING PICTURE SCENES BOY SHOT AND ONE IS MADE READY TO BURN

St. John, N. B., Nov. 10.—One boy was shot dead and another narrowly escaped being burned to death yesterday by companions who were re-enacting some of the thrilling scenes they had witnessed in moving pictures. Joseph Caples, aged fourteen, was instantly killed by a bullet from a rifle in the hands of Arthur Donovan, aged twelve, while the two were rehearsing a wild west scene in a lonely field outside the city. An inquest will be held.

In the other case a fatality was prevented by the timely arrival of a police sergeant. Attracted by the shouts of a crowd of boys on the outskirts of the city he approached just in time to save one of their number.

In this case also the boys were imitating a moving picture they had witnessed, and in the roles of Indians had tied one of their number to a stake to be burned alive. To make the picture more realistic they piled straw and brush around the stake, and then, carried away by their enthusiasm, were about to set fire to the pile. The match was lighted and was poised to start the flames when the policeman arrived.

MONTEREY WARFARE IS FIERCE CONFLICT

Property Loss Many Millions and Loss of Life is Heavy

Laredo, Tex., Nov. 10.—Warfare without quarter, with the opposing armies burning and dynamiting official and business buildings and railroad property, has been waged at Monterey, Mexico, between the defending federalists and besieging constitutionalists.

The unrelenting fierceness of the struggle, particularly in the engagement of October 23 and 24, when the constitutionalists occupied a large portion of the city, is pictured in Zigzag, an illustrated weekly published in Monterey, copies of which reached Laredo to-day.

Many dead were left in the streets until a hail of the fighting should afford time for burning the bodies. A view of Guadalupe street, near the National railways, where the conflict centred, showed an entire block destroyed by fire and cannonading, with numerous bodies in the ruins.

The property loss is said to be enormous. The railroads say their damage will amount to \$1,000,000. In the yards 68 cars, many loaded with merchandise, were burned. The roundhouse and more than twenty engines were destroyed. The loss of life was heavy.

When You Drink Beer—Drink creamy, delicious "Humbler," Bavaria's finest brew, or "Pilsener Hofbrau," the one real, imported Pilsener on this Coast. They're both on draught at "The Kaiserhof."

WINNIPEG WELCOMES SALVATIONIST HEAD

Crowds of People Assemble to Hear General Bramwell Booth Speak

Winnipeg, Nov. 10.—Winnipeg, on behalf of the sister provinces, yesterday turned out en masse to welcome General Bramwell Booth, commander-in-chief of the Salvation Army. The general was welcomed, not merely by Winnipeg, but to the Canadian prairie, west, officers of the army being in attendance from Regina, Moose Jaw, Calgary, Edmonton, in fact, all the principal cities in the west, to extend the welcome of their brethren to the chief of staff.

The Walker theatre, where the gathering took place, was crowded, and in addition to the 2,500 inside, fully another thousand applied to the doors for admission, and throughout the afternoon sought means of entrance.

At night a still greater crowd stormed the doors, and long before the scheduled time of opening, the police had to hold the doors against those who sought to hear the message of the father, General William Booth, told anew by the son.

The new general welcomed first for his father's sake, remained to be warmly greeted for his own, the speakers moving a vote of thanks to him, voicing the general thought that the mantle of the father had fallen on worthy shoulders.

In telling of "some lessons of my father's life and work," General Booth, unconsciously perhaps, but nevertheless unmistakably provided abundant proofs of his mastery of those lessons. He narrated that the aged general had once been asked the secret of his wonderful success in drawing men to him. "Sir," the veteran had replied, "I resolved that God should have all there was of William Booth," and it was not long before his hearers knew that the same keynote of life had been taken up by his successor.

Sir William Whyte presided at the afternoon meeting, a vote of thanks being proposed by Sir Redmond Roblin and seconded by T. C. Norris, leader of the opposition in the Manitoba legislature.

INCORPORATE PACIFIC PEACE RIVER RAILWAY

Application at Next Session of Parliament; Road to Traverse 1,500 Miles.

Ottawa, Nov. 10.—Application will be made at the next session of parliament for an act to incorporate the Pacific, Peace River & Athabasca Railway Company, Ltd.

The company will ask for power to construct a line commencing at a point on the water at the mouth of the Naas river, British Columbia, and running in a northeasterly direction up the river 225 miles to the height of land between the Naas and Skeena watersheds. Thence it will follow the Skeena to the mouth of Bear river and to Bear lake, thence across the divide, to the Dittwood river and down the river to North Tecla lake, thence crossing the divide via Hogen pass to Omineca river, thence following the river easterly to the Finley branch of the Peace river, following the main Peace river easterly and northerly to Vermilion rapids or chutes, in the province of Alberta, thence crossing the Peace river at the falls and continuing down the right bank of the Peace river to Point Providence, then in an easterly direction to the mouth of the Athabasca river, thence following up the Athabasca river to Fort McMurray, thence easterly up the Clearwater river to the Pembina river, thence following the Pembina south to the height of land and crossing over to Buffalo river, thence in an easterly and southerly direction to Prince Albert, a total distance of about 1,500 miles.

SOCIALISTS ADOPTING TACTICS OF MILITANTS

Demand Release of James Larkin and Celebrate Reading Election Result.

London, Nov. 10.—The Socialists have adopted suffragist tactics and have decided to oppose all Liberal candidates and refuse them a hearing at public meetings until James Larkin, leader of the striking Irish transport workers, who was sentenced to seven months' imprisonment at Dublin is released.

Hon. Frederick Masterson, M. P., was howled down yesterday when he attempted to speak at the Shore-ditch Tabernacle. These were for men kept up a continuous cry for the release of Larkin. The police finally were called to clear the church.

A demonstration was held at Dublin by strikers in celebration of the success of the Socialists in keeping the Liberal candidate out in Reading. This had reference to the success of Captain Wilson, Unionist, in capturing the Reading seat yesterday when the Socialist, Mr. Butler, cut into the Liberal vote.

DISLIKED SEATTLE JURY AND MAY BE ARRESTED

Seattle, Nov. 10.—A warrant was issued to-day for the arrest of J. D. Johnson, a commercial traveller, who is charged with contempt of court for applying a term of reproach to the United States jury that is trying the navy yard graft cases. It is alleged that last night when the jurors filed from the dining-room of a hotel, Johnson exclaimed: "There go those parasites."

CANADA TO FOLLOW NEW ZEALAND LEAD

Proposals to Spend Money on Defences at Esquimaux, Quebec and Halifax

Ottawa, Ont., Nov. 10.—That the Borden Naval Bill in its original contribution form and based on an alleged emergency will not be reintroduced at the coming session is now a practical certainty. There appears to be certain good and valid reasons why it shouldn't be.

In the first place the recently announced determination of New Zealand to eschew contribution and inaugurate the commencement of a navy of her own leaves Canada solitary among the advocates of tribute, and more than ever strengthens the hands of the advocates here of a Canadian navy. In the second place the recent results in Middlesex and South Bruce, two representative Ontario seats where the Borden crowd of a contribution was made an issue as against a Canadian navy, have not been gratifying to the government. In one seat the government's majority of 1911 was cut in two. In the other the majority was reversed and a victory recorded for the opposition. In South Renfrew, another Ontario bye-election, the opposition retained the seat.

Since Premier Borden announced his policy in December last fate has not been kind to him. There followed peaceful negotiations between Germany and Great Britain, which dispelled the emergency. Then came the disclosure made in a memorandum that the Imperial defence committee in which Canada was to be represented should be merely advisory in character. Following this, it was stated that the Imperial squadron which it was proposed to organize with Canada's ships in the forefront should not be stationed at the supposed danger point, but should have a roving commission. After that there was a demerit by the Admiralty from its policy of concentrations, and finally comes the news that New Zealand has forewarned its contribution policy and gone in for a navy of her own.

Should Premier Borden reintroduce his policy of contribution this session it would be tantamount to an appeal to the country, for there is no man here who doubts that the Liberals in the House would have their opposition in any degree, or that the Senate would take any different attitude than it did. Even should the government, as has been suggested by the Conservative press, place in the estimates an appropriation of thirty-five millions to be spent under the Naval Service Act on ships now being built in Britain, the Senate would reject it, though it should mean the rejection of the entire supply bill. Then the government would have no choice but to go to the country on a twice defeated and a much discredited policy of defence.

Three solutions are suggested. The first is a compromise between the two parties whereby the general principles of the Laurier Naval Act will be accepted with the additional provision that the vessels shall automatically pass under the control of the Admiralty in time of war, without the mandate of parliament. This is to be the policy of New Zealand.

The second is to place in the estimates a sum for the improvements of coast defence at Quebec, Halifax, and Esquimaux, pending the formation of a permanent policy in 1915, prior to going to the country.

The third is to side-step the question altogether this session by the announcement that an Imperial conference will be called to discuss defence in the light of recent events.

In any case it is believed that the old bill is dead. Whatever has been decided upon, however, if anything has been decided upon, only the Prime Minister can say. He has left the capital on another holiday in the south.

FEAR FATALITY FOR MISSING BRIDGEPORT

Forty-two on Dominion Coal Liner Now Nine Days Unheard of.

Montreal, Nov. 10.—News of the missing Dominion coal liner Bridgeport, though anxiously awaited throughout the week-end, was still not forthcoming up to a late hour last night, and even the most optimistic are beginning to fear that her fate will be reported by some steamer passing wreckage bearing her name.

Nine days have passed since the Bridgeport sailed from Sydney. She should have been signalled 30 hours later from Fame Point, and was due to arrive at Montreal last Tuesday.

The officers and crew of the Bridgeport numbered 42. These were for the most part Norwegians and Chinese. She was commanded by Capt. Olsen.

BUSINESS PREMISES BURNED AT NIPIGON

Damage by Fire in Ontario Town is Estimated at \$75,000.

Nipigon, Ont., Nov. 10.—The business portion of Nipigon, Ont., situated 70 miles east of Port Arthur, on the C. P. R., was nearly totally destroyed by fire which started at 8:30 p.m. and continued until 12:30 a.m.

The fire started in a building untenanted except for a clothing store, and swept west as far as the International hotel, where it was checked. The business places burned include three stores, two restaurants, three barber shops, two poolrooms and two butcher shops.

The total loss is approximately \$75,000, covered by insurance. The origin of the fire is unknown. The buildings were very congested, which accounts for the big loss.

BECAUSE IT'S BETTER BREAD

That reason—and it's a truthful one—should alone be sufficient to decide you, but when you can add to that the fact that

Victoria's new loaf, is made up to a high standard and never allowed to depart from that standard; that it is baked, on home-made lines, in a modern, sanitary bake-shop by fastidious, skilled workmen, is always uniform in quality and fresh daily. You shouldn't delay a day longer. Better bread but same price.

SAMUEL SURPRISED AT ROBILIN ATTACK

British Postmaster Answers
Premier of Manitoba on
Education Speech

London, Nov. 9.—No one is more astonished than Hon. Herbert Samuel, at the scathing attack made upon him by Sir Redmond Roblin, premier of Manitoba, in consequence of certain remarks alleged to be derogatory to the educational policy of that province, which the British postmaster-general made at Montreal during his recent visit to Canada.

What occurred, said Mr. Samuel, is that he was asked to give impressions of the West, and in so doing he mentioned that he had been specially struck with the zeal of the people of those provinces for education; with the excellence of their schools, and the fact that great universities had been founded on sound lines.

He added that the only exception he had observed was that in the province of Manitoba, a system of compulsory education had not yet been established, and that he had been informed that the result had been that a proportion of the children, especially of the foreign population of the city of Winnipeg, were receiving little or even no schooling. He had learned this, he said, with surprise, in a province so progressive as Manitoba.

It is possible, Mr. Samuel said, that his remarks may have been misrepresented in the press, but otherwise he is at a loss to know on what ground the Roblin denunciation is founded. The statement was based on information he had received from more than one educationalist in Winnipeg, in which town, as well as elsewhere, he had visited several elementary schools. His remarks in this connection were endorsed by Principal Peterson, of McGill University.

The statement referred to was made by Sir Redmond Roblin, at Montreal Friday night, when the premier took strong exception to the interview.

READING ELECTORS CHOOSE THE UNONIST

London, Nov. 10.—On Saturday Capt. L. O. Wilson, Unionist candidate, was elected to the House of Commons, defeating the Liberal and Socialist candidates for the Reading seat. The election was caused by the elevation of Sir Rufus Isaacs to the office of Lord Chief Justice.

The vote was: Wilson, 5,144; Gooch (Liberal), 4,031; Butler (Socialist), 1,063. The Socialist vote cut into the Liberal.

Analysis of the returns shows that the increase in the total vote was 149, and that was the increase in Captain Wilson's vote over 1910. In other words, the additional ballot all went to Captain Wilson.

At the last election Sir Rufus Isaacs polled 5,094 votes against 4,995 received by Captain Wilson. The Liberal and Socialist votes to-day totalled the same as Sir Rufus Isaacs' vote in 1910.

London, Nov. 9.—The results of the parliamentary bye-elections in Llanthowry and Reading yesterday were greeted with the wildest enthusiasm in all Unionist quarters to-day, and particularly in Ulster.

All the Unionist papers in their editorials to-day declare that after two such staggering blows it will be impossible for the government to persist in refusing to regard the demand for a fresh appeal to the country on the Home Rule bill.

MANY SURGEONS ARE AT ANNUAL CONGRESS

Chicago, Nov. 10.—Between 3,000 and 4,000 surgeons from this and foreign countries were registered to-day at the opening of the fourth annual clinical congress of surgeons of North America.

Plans for to-day's session included clinics in thirty different hospitals, at which 200 to 300 operations were to be performed by Chicago surgeons, and a programme of address to-night.

SPENCER PLEADS INSANITY.

Chicago, Nov. 10.—Insanity is expected to be the basis of the defence of Henry Spencer, to be placed on trial before Judge Slusser at Wheaton, Ill., to-day, for the murder of Mrs. Mildred Allison-Rexroate at Wayne, September 26.

The prisoner, who first confessed to a score of murders in Chicago and vicinity, now admits having killed only Mrs. Rexroate and two others.

KILLED UNDER FREIGHT CAR.

Vancouver, B.C., Nov. 10.—Maitland Burton, aged 33, was killed last night when one car of a C. P. R. freight train left the rails at North Bend and slipped down an embankment a distance of fifty feet. Mr. Burton had got down to watch a hot journal and was caught under the sliding car.

CREW IMPRISONS CAPTAIN AND MATE

Mutiny Reported When Barque
Returns to Delaware
Breakwater

Lewes, Del., Nov. 10.—The barque Manga Reva, which cleared from Philadelphia, October 9 for San Francisco, returned to the Delaware breakwater yesterday because the crew had mutinied, according to Capt. Townsend, commander of the vessel.

When the barque arrived Captain Townsend sent a letter to the ship's agent here asking for assistance. The letter did not give the cause of the mutiny, but the captain said he was ill when the outbreak came, and that he and the mate were tied in their berths. They were later released to navigate the ship on a promise that they would return to the Delaware Cape.

The Manga Reva was formerly the British ship Pyreneas. In 1909, while on a voyage from Tacoma to Europe, she took fire in the Pacific ocean. After an exciting 15 days' run for land, the ship was beached on Manga Reva lagoon in the South Pacific. The wreck was sold at auction in San Francisco for \$235 to Capt. I. E. Thayer, who fitted out a wrecking expedition, floated the ship in 1902, brought her to port, repaired her and placed the ship under the American flag.

New York, Nov. 10.—The United States revenue cutter Itasca left New York in the face of a gale during the night to the relief of Capt. Townsend, of the barque Manga Reva. The Itasca will reach the barque sometime to-day.

4,571 MILLIONAIRES RESIDE IN ENGLAND

British Capitalists Have Thirteen Billion Dollars Invested All Over World.

London, Nov. 10.—England's assessed income from abroad, as set forth in the income tax statistics of last year, reached the immense total of \$520,000,000, which represents capital of nearly \$13,000,000,000.

These incomes are derived from foreign mines, gas works, waterworks, tramways, breweries, tea and coffee plantations, nitrate grounds, oil fields, land, financial, telegraph, cable, shipping and insurance companies, branches and banks, mercantile companies, mortgages on property, loans and deposits abroad, and profits of all kinds arising from business done abroad by manufacturers, merchants and commission agents.

When it is realized how great is the capital invested by Englishmen abroad in these varied enterprises, the immense aggregate income, outside that included in the income tax statistics, can be imagined.

According to the same statistics there are 214 persons in the United Kingdom with an income of \$75,000, which means that there are that many persons possessing a capital of about \$6,000,000 each. But these are not the richest Englishmen. There are 66 with an income of \$500,000 and over, 55 with an income of from \$375,000 to \$500,000, 37 with incomes of \$325,000 to \$375,000, and 56 with incomes of from \$275,000 to \$325,000. Furthermore, there are 4,448 persons with incomes of \$50,000 and over, which means the possession of a capital of \$1,000,000 or more. Consequently the total of persons in the country who possess at least \$1,000,000 does not fall short of 4,571.

GALE ON SUPERIOR HOLDS MANY BOATS

Waves Wash Over Bow of Harmonic and Destroy Wires of Empire.

Port William, Ont., Nov. 10.—The gale which has raged on Lake Superior for the past three days, still continues, and wireless reports told of six vessels in shelter behind Thunder Cape, among them are the barges Empire and Province of the Great Lakes Dredging Company fleet. The wind was so strong that it disabled the wires on the Empire on Saturday, and a temporary rig had to be made.

The steamer Harmonic, of the Northern Navigation fleet, told that she was coming right across the lake in the teeth of the gale, and spoke of waves so high that they washed completely over her bow. The Alberta is still anchored at White Fish Bay, while the Assiniboia has not been reported, and may be lying in shelter with the Alberta.

SMUGGLER PARDONED BY PRESIDENT WILSON

Washington, D. C., Nov. 10.—President Wilson to-day pardoned William Dunbar, convicted in 1893 in the United States district court of Oregon of smuggling opium from British Columbia. Dunbar's imprisonment Dunbar forfeited bail and fled to China, where he has been for the last twenty years. His petition was reinforced by consuls in China and other officials, who praised his life in Hongkong in high terms.

FIRE LOSS NEAR BROOKLYN.

New York, Nov. 10.—Twenty-five frame buildings, including a number of yacht clubs, were destroyed by fire to-day in the Sandway section of Canarsie, in southeast Brooklyn. The loss was \$150,000.

Save Money and Avoid Pain by having your dental work done by Dr. J. L. Thompson, 1214 Government Street. Open evenings.

Smart Apparel for Women of Fashion

You can depend that the styles in the garments shown at "Campbell's" are the best the world's talent could produce.

Every garment carries with it a guarantee as to style and quality and it also carries a prestige that does not go with the usual ready-to-wear.

Striving towards the highest success that it is possible for a store to obtain—it has been and is the constant aim of "Campbell's" to give VALUES that women appreciate.

EVENING GOWNS

At \$22.50 —a charming little gown of pale blue Liberty satin; bodice of lace net veiled with crepe nixon and trimmed with dainty motif of chiffon flowers. The dress is finished with a galon of silver bugles.

At \$40.00 —an exceedingly sweet little gown of ivory satin. The skirt has soft drape, tunic style of elaborate needle-run lace. Bodice is exceptionally pretty, being comprised almost wholly of fine silk shadow lace with a vest effect of white nixon, trimmed with dainty bows of black tulle, jewelled centre.

At \$100 —here indeed is a glorious creation of brocade velvet on satin ground. The color is a lovely shade of Rose du Barry; the waist is of the finest shadow lace over white chiffon, while an attached French corset-bodice of fine lace edged with pale blue ribbon and dainty flower scroll peeps, as it were, through the lace veiling. The skirt has a side draping of black fluted net edged with ermine. Tulle of diament trimming completes this superb gown.

The above are merely three of scores of models which we show at a price range from \$16.50 to \$225.

OPERA CLOAKS

At \$20.00 —a stunning cloak of cerise silk bengaline, lined throughout with white silk. Collar edged with fur in stole effect and finished with frog of corded silk to match. A wonderful cloak at \$20.

At \$37.50 —a cloak of green brocade velvet in a shade of emerald green. Collar trimmed with smoked fox and large buttons of self material. Lined throughout with satin.

At \$90.00 —a very clever and handsome cloak of broche plush. The color of this model is that of the dahlia. The collar and gauntlets are of chiffon velvet while a very striking feature is the magnificent fastening idea of cord and drops of satin and velvet. Lined throughout with ivory satin.

Our Opera Cloaks range in price from \$10.50 to \$225.

All copy for display advertisements must be at Times Office before 4 p.m. of the day previous to the day of insertion. This is imperative. When this rule is not complied with we do not guarantee insertion.

NOT TO BLAME.

On the authority of the management of the Esquimalt & Nanaimo Railway Company the Times is able to state that in no way is the company responsible for the delay in starting work on the harbor bridge. It is ready to do its share in connection with the project at any time, and has lodged no objection against the Johnson street location.

It is only just to the company that this announcement should be made, because of an attempt by the government organ to shift the responsibility for the delay to its shoulders. In this connection we would point out that the only work which has been done on the reserve in connection with the railway terminals has been performed by this company, while neither the provincial government nor the much-touted, heavily subsidized, Canadian Northern Pacific has moved a hand.

RESP ECTERS OF PERSONS?

A number of news, tobacco and fruit stand proprietors were fined on Saturday for violating the provisions of the Lord's Day Act. The crime, with which most of them were charged, was selling packages of chewing gum, though some more desperate or hardened had gone so far as to furnish purchasers with packages of cigarettes, bags of peanuts and plugs of tobacco. There were two extreme cases in which ten cents' worth of grapes and five cents' worth of chocolate were involved. Upon all offenders the magistrate inflicted fines of \$20.

Thus was the majesty of the law upheld—that is, as far as it affected those particular offenders. It was not applied to the hotels or the C. P. R. news stand at the wharf, where tobacco, cigars, chewing gum, souvenirs and newspapers may be dispensed without fear of prosecution. The attorney-general's view is that the law is not violated by travellers who buy these small commodities, but it is grievously fractured if a citizen of the place buys them across the counter of a stand whose proprietor earns his livelihood by selling them, and pays a tax to the city for the privilege of doing so. The Japanese bootblack in a fashionable hotel may shine the shoes of a person secure in the knowledge that he is sheltered from the pains and penalties imposed by the Lord's Day Act by the protecting arm of that champion of a white British Columbia, the first law officer of the province, while shoeshine proprietors throughout the city generally would have had to pay \$20 for doing precisely the same thing.

This is discrimination in its rankest form. We are told that latitude should be exercised in the administration of the act, and that travellers who stay at the city hotels or pass the C. P. R. stand at the wharf should not be inconvenienced by being denied the opportunity of buying a newspaper, a package of chewing gum, a cigar or a plug of tobacco, or having their shoes shined. Thus the moral principle which is the essence of all laws designed for the betterment of the community waits upon convenience, and we are informed that the reverend officers of the Lord's Day Alliance have commended the action of the attorney-general in these prosecutions! But, alas, for the moral principle! Gross commercialism enters into the situation. The convenience of the travelling public is only guarded zealously because it is in the interests of the steamship companies and hotels that this should be done. These institutions are not public philanthropies. Their purpose is to make money, so the Lord's Day Act is administered with an eye to the profits of important business interests and the corresponding losses to be suffered by the harassed small dealer.

The act should be enforced on everybody alike or not at all. If it is not

enforced at all, as Victoria is at present constituted and inclined Sabbath observance will not suffer in its main essentials. This city is a Sabbath observing community. As we have frequently pointed out, even when it was believed that no ordinance on the subject applied to the island there was no disposition to making a business day out of the Sabbath. The overwhelming force of public opinion is opposed to a wholesale desecration of the day. It also believes in fair play, and reproaches the ugly discrimination which now prevails in the administration of the law. And we have always boasted that British laws were not respecters of persons!

MR. BORDEN'S ILLNESS.

Eastern newspapers are speculating as to who is likely to succeed Premier Borden in case a holiday and daily exercise on the golf links in Virginia should fail to cure the ills from which he is suffering—nervousness, insomnia and boils. We hope there may be no necessity for choosing a new leader of the Conservative party for many years to come. We express this hope for two reasons. The premier is a very fine man indeed, all things considered, and particularly considering the connections he has established by leaving the Liberal party. Then if by reason of continued ill health Mr. Borden were compelled to retire, consider what an unseemly wrangle there would be for his position. Hon. "Bob" Rogers, the unscrupulous, would assuredly win against his weaker opponents, and consider the repute of Canada with Hon. "Bob" as premier for even a few months. We have an assurance from a regular habitue of the links that golf is a sovereign remedy for all ills short of a completely undermined constitution. Therefore there is good reason to hope that Mr. Borden will return to Ottawa at the end of this month so thoroughly rejuvenated as to be quite capable of leading the House through what will undoubtedly prove a very strenuous as well as a most interesting session.

UNEMPLOYMENT.

We sympathize sincerely with the feelings of "A Man Out of Work." Probably his bitter attack on "The Conditions in Canada" is justified from his personal experiences. At the same time we cannot perceive how his circumstances would be improved by the publication in their entirety of his opinions of the conditions as he appears to have found them in this country. The writing of the letter he has sent us may have relieved his feelings, but we are certain the publication of it would accomplish no good thing for either himself or his fellow-countrymen in Canada. Besides the Times cannot afford to permit itself to be made the medium for the contradiction of all the statements appearing in the Colonist which readers of newspapers may regard as "bunkum." We really must reserve some space for news and our own views. Still there are some statements in "Man Out of Work's" letter that are worthy of sober reflection. It may not be flattering to be told, for example, that "the loyalty and Imperialism so much gabbled about is a sham. Every other nationality has a preference over Englishmen when it comes to work." We cannot believe the latter statement is true in fact. We do not believe there is any discrimination against the Englishman here simply because he is an Englishman. But there is little doubt that for a number of years past there has been too great a rush of newcomers to the cities of Canada. Not sufficient attention has been paid to getting settlers upon the land. That is true of the East as well as of the West. Our Canadian cities in the main have been growing very rapidly, in some instances perhaps too rapidly. Wages have risen in consequence, and workers have been attracted from the land. The country is beginning to feel the consequences now that a temporary lull in building operations has taken place. But the thing to do is not to sit down and wait about conditions. No relief can be effected in that way. There is a shortage in nearly everything that land produces. What Canada needs is producers. What British Columbia particularly needs is producers. Every observant person now perceives that if our national progress is to be maintained something must be done to induce settlers to take up land, bringing the waste places under cultivation. The time for a general readjustment has come. There are difficulties to be encountered, we know. How great they are only those who have a knowledge of the situation in British Columbia can thoroughly appreciate. It is no light task to convert a man who has been brought up in a city into an intelligent and methodical cultivator of the soil. It will be still more difficult in this province under existing conditions to find the land upon which to place him. But that is a problem which must be undertaken and solved. Our provincial government is never tired of boasting of the broad areas it has reserved for the settler. Now is the time for it to prove its words by the evolution of a scheme for introducing the settler to the soil. Probably such a scheme might

not entirely solve the problem of unemployment. But it would tend in that direction, and eventually some kind of equilibrium in conditions would be restored.

IS IT POSSIBLE?

Again is revived the rumor that Sir Richard is about to leave us. We have heard a number in the last few years, one being so persistent and buttressed by so much circumstantial evidence that with real tears of sorrow we believed it. It was that he was slated to succeed Lord Strathcona as High Commissioner for Canada in London. The frequent trips across the pond, the most noble order conferred upon him, his little incursions into the realm of high imperialism in his utterances for outside consumption, seemed to point to the accuracy of this announcement.

The latest is that he is not to be High Commissioner after all. He is not even to move in the more limited armament reserved for provincial agents-general. According to a correspondent at Ottawa it is said there that Sir Richard is about to retire from the public life of Canada, and enter the political arena in the Motherland, to espouse the cause of a rejuvenated Chamberlain-Unionist party. But we cannot swallow all this dose, Sir Richard cannot support the Unionists. He is a home ruler and will not bend the knee to King Carson. Besides, all his affiliations in the Old Country are Liberal. His principal friends are among the party in office. We are sure he never would be so ungrateful as to draw his sword against those statesmen who, he recently declared, had extended to him on his last visit the same measure of generous hospitality he had enjoyed from this distinguished source on other occasions. It would be an inspiration to see Sir Richard McBride, Joe Martin and John Redmond fighting shoulder to shoulder for the cause of Home Rule in Ireland.

RETROSPECT AND REMEDY.

Previous to 1896 the Honorable George E. Foster tried to make the people of Canada believe they were prosperous by ingeniously manipulating official statistics. The reply of the leader of the opposition, who afterwards became Sir Wilfrid Laurier, was that if he was elected to office the people would not need any figures to establish their prosperity. They would feel it in their pockets. The elections took him at his word and his prediction was literally fulfilled. His regime proved to be the golden age of Canada's history. Our progress became the wonder of the world. Millions of people came pouring in, towns expanded into large cities; railroad construction went on in all directions; shipping increased enormously. A country of comparative unimportance became the most important state of the overseas dominions.

The Conservatives denied that the Liberals were responsible for this remarkable transformation. Providence, they declared, was the beneficent agency from which our blessings came. This, of course, was true in the final analysis, though Sir Wilfrid was wont to point to the singular coincidence that Province only became propitious when the Liberals were in power. But it was the Laurier administration which compelled the railway companies to unlock the land reserve in the Northwest; which inaugurated a memorable campaign of immigration and settlement; which opened up a huge domestic market for the manufacturers of the east and the natural products of this province. More than anything else, it was the Northwest policy which contributed to Canada's progress in the last fifteen years, putting into circulation annually hundreds of millions of dollars derived from the development of our far-famed grain growing areas.

Naturally if the placing of a million farmers on the lands of the prairie provinces was so potent a factor in Canada's prosperity, anything that could improve their lot and facilitate their labors would be equally beneficial to the country as a whole. So reciprocity with the United States in natural products was sought. It was believed by the promoters of this arrangement that the creation of a wider market for the farmers logically would induce them to perform their operations on an even more extensive basis; that it would be an incentive for an even wider measure of agricultural settlement. It would have given the Northwest its second wind, and we are absolutely convinced that had it been upheld by the people of Canada this country would have been saved much of the depression which has prevailed in the last twelve months. Give the farmer larger markets, remove some of the taxation which now handicaps him, and he will have more money with which to purchase those products of the other provinces he cannot raise himself.

We believe that the establishment of freer trade relations between Canada and the United States would do more to remove the present despondency than any other agency. Two years ago we predicted that the electors of this country, deluded by the insincere catch-phrases of a spurious imperialism, would repent of their action and

Jingle Pot Coal

Is the Coal with a reputation—a clean, energetic fuel, rich in heating properties, low in waste, and small in cost when quality is considered.

Kirk & Co.

Phones 212, 139.
618 Yates St. Esquimalt Road

have repeatedly prophesied since then that we would yet be compelled to adopt an arrangement such as was defeated at that time. Indications now point to a growing sentiment in this country which ultimately will insist not only upon an equalization of the duties on natural products, but upon the reduction of customs taxes upon numerous manufactures, as well. Give us these conditions and we need not drop into the slough of despond every time a European complication tightens up the money markets of the Old World.

WHY, INDEED?

In discussing the rule of the road our contemporary says:

"There is not a single argument in favor of turning to the right except that some people have been unwisely enough to adopt that practice. Because these people sometimes come here, why should we adopt their folly? Why not require them to conform with our wiser plan?"

It further says that the custom of turning to the right was the invention of ox-drivers, and we have passed the ox-team stage. There are more than one hundred million people on the North American continent. Of these not more than one million adhere to the practice of turning to the left. So the "some people" who, our contemporary says, are still in the ox-team stage, number about ninety-nine million, ninety-nine million million million, who in everything that makes for material progress we outclassed years ago. Why, indeed, should we revert to the custom subscribed to by the untutored inhabitants of the Prairie provinces, Ontario and Quebec, not to speak of the darkened heathen south of the boundary line? Why, indeed?

If the agitation started by the Times causes an early start to be made on the Johnson street bridge and Songhees reserve terminal works and thus affords relief to some of our unemployed during the winter we shall be abundantly satisfied. To our contemporary we will readily leave the glory of having done everything else but create the province out of gas.

REFLECTIONS ON NIMROD.

New York Sun.
A man upon the sword was lying,
A deer stood still, his form supine.

Remark the stag: "Behold the gozer
Shot in mistake for me! Great Caesar!

"A fright you surely would confer him,
He hasn't got a horn to bless him.

"His legs, so clumsy in construction,
Are only two—a sad reduction.

"His eyes are small; it is my duty
To say they lack my liquid beauty.

"And then the hide to him allotted
Is sickly white—not red or spotted."

The venison then homeward wandered,
The while rejoicingly he pondered:

"What luck that none the giftie gie us
To see ourselves as others see us!"

LIBERALS ARE PEOPLE'S HOPE.

Montreal Telegraph.
Sir Wilfrid Laurier disapproves entirely with those who hold that the present alarming increase in the cost of living is an inevitable adjunct of "prosperity." He says the increase can be stopped by lowering the tariffs and by grappling with the trusts who rob the farmer on the one hand and the consumer on the other. In this matter it is common knowledge that the people can look with hope only to the Liberal party. It is gratifying, therefore, to see that Sir Wilfrid Laurier is leading his party with such splendid energy into the fight.

CHARITY.

Life.
Charity begins at home, and often ends there. It is usually divided into two kinds, namely, public and private. Public charity consists of a salaried office force and a subscription list. Private charity is what we give when we don't know what to do with the surplus. There is also a species of charity known as genuine. Inasmuch, however, as it is never advertised in the newspapers, scarcely anything is known about it.

A PLAY ON THE WORD.

From the Canadian Courier.
Sir William Mackenzie has a young man in his office who sometimes shows himself possessed of a sense of humor. The other day a newspaper reporter called up and said he had heard that Sir William, while travelling, had lost his luggage, or as the scribe put it, his grip. He wanted to know the particulars. "Nothing in it," said the alert young man. "Sir William never loses his grip."

\$7.50 Buys a Costume Worth \$15 to \$20

Other Values Greatly Reduced and Selling at \$14.75, \$24.75 and \$37.50

At \$7.50 Those women who have to think twice before spending their money on a new costume will certainly appreciate this offering. It enables them not only to choose from a wide selection of styles and materials, but also from a range of values that were made to sell from \$15.00 to \$20.00—thus a very smart, stylish garment in the very latest tailored or novelty style can be acquired at a price that is certainly within the reach of all.

At \$14.75 We are offering exceptional values for so early in the season. They represent all our most popular lines and values in imported Suits. Those women who are already acquainted with the values we have been selling throughout the season at \$25.00 to \$35.00 will realize what exceptional bargains these Suits represent. All the newest fabrics, shades and patterns are included, and the range of styles is the best that's being shown.

At \$24.75 The range of Suits are of a very high order. The make and finish, fabrics and styles are of the very best, and can only be appreciated by a careful examination and by comparison. All the leading novelty styles are included, many showing the longer coat, and extreme cutaway, with skirts in draped or slashed effects. The regular values of these Suits range from \$37.50 to \$45.00.

At \$37.50 We are offering all our extreme novelty Suits. This truly is an exceptional offer, and allows for the woman of moderate means to acquire at small cost a Suit that has been hitherto only possible for the wealthy. Many exclusive models are to be had, and some are very handsomely trimmed on collars and cuffs with fur; Suits that have been selling throughout the season for \$47.50 to \$75.00.

The fact that every Imported Suit in the store is reduced makes an unique opportunity for women to acquire the very best of this season's goods at end-of-the-season prices.

Mantle Dept., First Floor.

Tuesday—A Special Sale of Children's Trimmed Hats at \$1

Pretty Little Hats in a variety of shapes and colors, neatly trimmed with ribbons, braids, and bows, in contrasting shades.

Women's Sweaters From \$1.50 to \$8.75

WE are now showing a very extensive range of Women's Sweaters for Fall and Winter wear. To find a more suitable and serviceable garment for women to wear would be a puzzle for any buyer. A sweater-Coat can be shipped on at any time of the day, and can be worn on almost any occasion. They never look out of place, and the extra warmth and comfort they give more than compensates their modest cost.

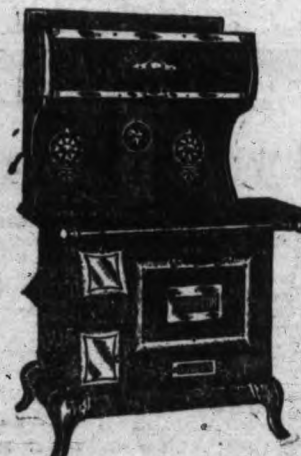

Sweater Coats, made from good quality worsted, in colors navy, khaki, cardinal and white, in V-shaped neck, finished with a band down the front and two side pockets. A wonderful line at

Another Good Line is to be had in a selected woven mixture, in colors brown, navy, grey and cardinal. They are in a fancy knit and have a neat collar that buttons close up to the neck. They are finished with a plain band down the front and two patch pockets. Beyond all doubt these are a quality that cannot be duplicated at the price. Per garment

The Shaker Knit Sweaters are a line that is worthy of special attention, being woven of all wool, in a style that shows conclusively that the garments are made to give a full degree of comfort and satisfaction to the wearer. They stand head and shoulders above the ordinary garments for quality and sterling value. They have roll collars that can be fastened close up to the neck or worn as a V-shaped style. All sizes are to be had at, per garment

—First Floor

The Spencer "Brighton" Range

For Fire, machine, automobile, liability, sickness and accident, plate glass, elevator and employers' liability, consult Gillespie, Hart & Todd, general agents for British Columbia. All claims settled and paid by our office.

Fuse Burned Out.—Better have a lamp or two handy in case your fuse burns out. Hand lamps, 40c to 60c. Table lamps, 50c to \$1.50. Bracket lamps, 50c and \$1.25. R. A. Brown & Co., 1302 Douglas St.

Books Harbor Hotel.—Come to Sooke Poultry Association Annual Informal Dance on Thursday, November 13, 9 p.m. Come early and visit the show Wednesday and Thursday. Prize-giving by kindness of Mrs. R. H. Pooley, 8 p.m.

Cooking Made Easy.—Ring up F. Oak & Co., 1847 L2 for a large double load of fir cordwood cut in stove lengths and you have solved the problem.

Victoria Branch of the British Columbia Society for the Prevention of Cruelty to Animals. The annual meeting will be held in the hall of the Alexandra Club on Wednesday evening next at 8 o'clock. Thos. W. Palmer, secretary.

Seeking Her Son.—Mrs. Julia Neal, 39 Milbrook road, Totter, Southampton, England, writes to the police here asking their aid in the search for her son, Clifford Neal, a young man of twenty-three, who is supposed to be working either here or in Vancouver.

High School Cadet Shoot.—The High School cadets held a shoot at Clover Point range Saturday morning. The following were some of the best scores out of a possible 35, at the 200-yard range: Cadet Bennett, 23; Major Yull, 28; Sergt. Hardwick, 28; Lieut. Harvey, 26; Cadet M. Scott, 26; Cadet Dawson, 25; Capt. Terry, 24; Cadet Watson, 24; Cadet Wood-ton, 21; Cadet Carver, 21; Sergt. Mil-lard, 21; Sergt. Savanah, 21; Cadet Gee, 21; Cadet Scott, 21; Cadet Gilbert, 20; Cadet Burns, 20; Cadet Forrester, 19.

Chief Davis Speaks.—In the First Congregational hall Fire Chief Davis delivered a lecture on "How to Manage a Fire," before the Seventh and Eighth troops of the Boy Scouts. To illustrate his lecture the chief had a hose and some other fire-fighting instruments, and to make the talk practical he put the boys through a drill. Lieut. Col. W. H. Cunliffe, district commissioner of the Boy Scouts, and Rev. H. A. Carson were among the visitors present at the lecture. Chief Davis presented a number of badges to members of the Eighth Troop.

Irrigation Problems.—The problems before the water board for solution at Kamloops are many and perplexing, according to the chairman of the board, J. F. Armstrong, who has just returned from the interior. There are claims for records in that district for four times more water than is available in the best of seasons, some dating back to 1865 and many involved with litigation. The members of the board go back to the mainland to hold a sitting at Ashcroft this day week, then go down into the Okanagan country and return to Kamloops for a sitting to open on December 1.

Ladies of Macabees.—A large crowd attended the sale of work held in the Progressive Thought Temple on Saturday afternoon by the Ladies of the Macabees, No. 1, Queen Alexandra Halls. The stalls were all well patronized, and, decorated in the colors of the Hives, red, white and black, gave the room a very gay appearance. The most successful of the stalls was that in charge of Mrs. McIlwan, containing plain and fancy needlework, while the "pantry shelf" in charge of Mrs. Adams coaxed forth many useful dimes and nickels, the attractive array of cakes and bottled fruits proving irresistible to most housewives. The candy stall, with its toothsome sweeties, was in charge of Mrs. Iltz, Mrs. Wicks and others, and afternoon tea was served by Mrs. Keating and Mrs. Mickler, assisted by several other ladies. The musical programme provided in the evening brought the event to a pleasant conclusion.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, November 10, 1888.

Large sums of money have changed hands in this city on the presidential election, some reaching into the thousands.

Mr. Fairall, late of Orillia, Ont., is building an extensive brewery at Russell Station, where English and Scottish ales will be manufactured. The building will be two stories in height. Mr. Fairall is a brewer of large experience.

We agree with our morning contemporary that the river front should have a little more light at night. Frequently passengers are compelled to land in utter darkness.

United States war steamer Thetis is expected to arrive in a few days with the remains of the late lamented Archbishop Sagher.

C. Lowenburg, of Marseilles, France, a nephew of the late Baron Lowenburg, arrived in the city last night and is at the Drifard.

Sale of Work.—The Ladies' Aid of the James Bay Methodist church will hold their sale of work on the afternoon and evening of November 13. As the proceeds will be mostly for their best efforts to attain success. A splendid assortment of useful and fancy articles will be on sale; also a table of home-made cakes and candy. Refreshments will be served.

British Campaigners' Dinner.—The annual dinner in commemoration of the Baltic campaign, 1854-1855, will be held by the British Campaigners' Association on Thursday evening, November 27, at the Prince George hotel, commencing at 7.45. Invitations have been issued to members and to a number of outsiders and the function promises to be a most entertaining one, several good speeches being promised.

Police Ball.—The sale of tickets for the police ball, which is to be held at the exhibition building on December 3, is proceeding with such success that the committee anticipates that the attendance will be even greater than last year. Traffic Inspector James Palmer and Sergeant Harper are in charge of this part of the arrangements and all their spare time is being occupied with complying with requests for tickets. The other committees are also busy with the several arrangements for the ball.

Still Dragging.—Dragging is still being conducted in the Inner Harbor for the body of W. H. Smith, who has not been seen since he left home one evening three weeks ago, telling his mother that he would be back in a few minutes. His friends are convinced that he is being occupied with himself, he has made away with himself, and the dragging of the harbor has been undertaken with the idea that if he has drowned himself his body may be found and the anxiety of his mother relieved.

Y. W. C. A. Literary Society.—The following officers were elected at the meeting held at the Y. W. C. A. on Friday evening for the purpose of organizing a literary society: President, Miss Star; Secretary, Miss Langtry; Miss Farmer and Mrs. Smith. The meetings are to be held on the first and third Friday of each month at 8 o'clock. The winter course is to consist of a study of the works of modern novelists and current events, and those interested in the purpose of the organization are cordially invited to join the club.

Celebrate Golden Wedding.—A golden wedding anniversary of interest to Victorians was celebrated recently by Mr. and Mrs. Samuel Jackson, who came to Victoria from Bowmanville, Ont., almost thirty years ago. Their three children, two of whom are living in this city and one in Seattle, were present at a big reunion recently held, as also were thirteen grandchildren and two great grandchildren. A number of friends made up a very enjoyable party. T. L. Irving read a letter of congratulation to the pair and presented them with a purse of gold, and a gold photo frame engraved "1883-1913." All enjoyed a very happy reunion.

Hindus Protest.—At a meeting of the Hindus of this city Saturday evening, in protest against the deportation of the thirty-nine of their compatriots who are at present detained here, it was resolved a petition should be sent to the Governor-General of Canada and a cablegram to the secretary of state for India, and to Lord Hardinge, Viceroy of India. One speaker declared his belief that if the law of Canada was found to keep out Hindus the law of India would also keep Canadians out of India, as the laws of the two countries was the same. On behalf of one of the detained Hindus an application for habeas corpus is being brought before Chief Justice Hunter in Vancouver. It is expected the motion will be heard this week.

TO-DAY IS—

Yes, to-day is the very best day in the year to get acquainted with what is going on in town.

A wonderful medium of information is the advertising in to-day's TIMES. It is the news of the business world. It tells what is going to happen as well as what has happened.

If you are in touch with the world's work and it opens doors of opportunity to you.

Read the advertising. Get acquainted with what is going on.

Be an "I DO IT" man or woman rather than a "PERHAPS I WILL."

The advertisements are a pleasure to the eye and not infrequently a profit to the purse.

They are the lights lit to guide the feet of those who want to climb the ladder of success.

A LINE O' CHEER
EACH DAY O' TH' YEAR

By John Kendrick Bangs

THE USED-TO-BE.

Of all the bees that hum around
The best of all to me,
Whose honey's sweetest, I have found
The good old "Used-to-Be."

The sweets we've stored are our reward,
Saved for a rainy day,
And keep us warm against the storm
Of troubles on our way.

So here's to thee, old "Used-to-Be,"
So rich in treasure-trove!
Long as I live, my thanks I'll give
For all thy gifts of love.

ALL WERE CLOSED.

Fruit and Cigar Stands Did no Business Yesterday; Recourse had to Be had to Hotels.

Yesterday, with the lesson of the previous day at the city police court, the downtown streets assumed an aspect of Scottish solemnity. Except in the hotel stands it was impossible to secure a newspaper.

There were two weeks after the first decision of the chief justice when the city stands were closed up tightly, but the change was soon relaxed to the past and since that time until yesterday it was possible to buy newspapers from across the Sound or to get a fragrant smoke at a stand. Yesterday it was necessary to go inside the hotels or else get a cigar after meals at the restaurants in order to comply with the law. Nor was fruit to be had at the fruit stands, as they were all closed.

Whatever further steps are to be taken will be determined upon by the police commissioners.

A GOOD INVESTMENT.

An endowment policy in The Mutual Life of Canada is a good investment. But suppose a man at age 25 pays a yearly premium of \$37 for 10 years only, and then stops paying; in addition to the 10 years' insurance he has had for \$1,000 the company (without further payment from him) will keep him insured for a further period of 15 years for the full face of the policy and then pay him (guaranteed) \$500 in cash. A policy in The Mutual Life of Canada will give you the best value for your money. Apply to R. L. Drury, manager; or Fred M. McGregor, Special Agent; Offices 918 Government Street.

"THE HIGH ROAD."

Mrs. Pliske, after a complete season of success last year, both for her and for her play, "The High Road," is to continue in the Edward Sheldon vehicle until February, and is coming to the Victoria theatre November 20. It would seem from all that has been written of the play that the youthful but vigorous author has given Mrs. Pliske a strong, vital and unusual drama, and that in it she has reached the zenith of her artistic powers. The local engagement will surely be looked forward to with keen and general interest.

An Enjoyable Event.—A very enjoyable time was spent last Friday evening at St. John hall, when the Sons and Daughters of St. George gave a social dance. Everything was arranged so that everyone had a good time.

Arrange Winter's Work.—The Olympic branch of the W. C. T. U. will hold a parlor meeting at the home of Mrs. Ostrander, 272 Lipden avenue, next Wednesday at 3 p.m. The winter's work and other matters of importance are to be arranged for.

Inspected Equipment.—The field equipment of the Lethbridge battery of horse artillery has been inspected by Lieutenant Mulcahy and Master Gunner Warden, who have just returned from that city. These guns are of the latest pattern of twelve-pounder quick-firing description, and similar equipment was promised to No. 3 Company, Fifth Regiment, by the minister of militia when he was here last

Shipping News from Day to Day

NIAGARA TO BE ONE DAY LATE ARRIVING

Australian Liner Delayed at
Auckland, Docks Wednesday;
Mexico in Same Day

Through meeting with a serious delay at Auckland, N. Z., in getting her cargo of butter and frozen meats aboard, resultant from the dockers' strike, the fast Canadian-Australian liner Niagara, Capt. Morley, will be one day late arriving in port from Auckland. A wireless message was flashed to Victoria from the inbound steamship last night, and she reported her position as 319 miles from this port. The agents here are not expecting the flyer in port until Wednesday morning about 9 o'clock.

Ever since getting away from Auckland the Niagara has been steaming at increased speed, but she has been unable to catch up to her schedule time. She was a little over a day late clearing from Honolulu, and is succeeding in cutting down slightly the lost time. Heavy weather, however, is interfering with her on the last leg of the voyage, and preventing her from making any startling performance. The Niagara is coming in with a fair list of passengers about 175 all told. She has a full cargo of Australian products.

Mexico Gives Surprise.
Shipping men here were given quite a surprise this morning when a telegram was received from Capt. Kobayashi, stating that he would bring his command, the Osaka liner Mexico Maru, in from the Orient at 5 o'clock on Wednesday afternoon. The Japanese steamship is making a remarkably fast passage. Her scheduled date for arrival is Friday. On Saturday a wireless message was sent here stating that the Oriental liner would dock on Thursday morning, but now she is to come in nearly two days before the date given in her schedule.

The Mexico has three Chinese and eleven Japanese on board for Victoria, and has 360 tons of freight to discharge here.
No word was received last night from the inbound C. P. R. steamship Empress of Japan, Capt. Hopcroft, but it is expected that she will arrive in time to pass quarantine at William Head before sundown to-morrow afternoon.

WIRELESS REPORTS

Nov. 10, 8 a. m.

Dead Tree Point—Clear; calm; 29.82; 45; sea smooth.

IXION HERE LOADING

The Blue Funnel liner Ixion, Capt. Reipenhagen, arrived in port yesterday afternoon at 4 o'clock from Vancouver and Comox to load about 12,000 cases of salmon, 500 barrels of whale oil and considerable general merchandise. It is expected that the mammoth ship will clear to-night for Puget Sound ports.

The Pacific Coast steamship President, Capt. Paulsen, will sail for San Francisco to-morrow afternoon at 4 o'clock, and not on Wednesday morning, as formerly reported. The big vessel will carry a large list of passengers south.

FRISCO WANTS MORE DOCKS FOR SHIPPING

Business Shows 400 Per Cent.
Increase in One Year;
Tonnage on Way

San Francisco, Nov. 10.—Need for additional docks in San Francisco and the necessity for such accommodations for shipping within a short time is the talk of shipping men, who base their statements on the increased amount of deep-sea carriers now en route compared to the tonnage San Francisco bound a year ago. November 5, 1912, there were ships aggregating \$3,117 tons on the way to this port, and on November 5, this year, the tonnage bound here totaled 24,319 tons, an increase of nearly 400 per cent.

The enumeration of the vessels on the way here shows the names of several firms now doing a large business who were hardly seen on the official maritime news of a year ago. What the increase will be with the opening of the canal may be judged from this increase of 400 per cent. during the past twelve months.

Boats From Everywhere.
Twelve thousand one hundred and forty-one tons are on the way from New York, 31,625 tons from Antwerp, 12,112 tons from Hamburg, 11,755 tons from Hamburg, 11,965 tons from nitrate ports, 11,965 tons from Newcastle, England; 11,175 tons from Newcastle, Australia; 36,625 tons from the Orient, all Standard Oil tankers, and in addition to the regular passenger steamers plying between San Francisco and Oriental ports there are also other tankers for the Standard Oil on the way from the west coast of South America which total 19,741 tons. Then, besides the vessel from these ports, whose tonnage is great, there are the regular carriers to San Francisco and those from other ports where there are but a few steamers en route.

In the port here there are thousands of tons more shipping than there were on the same day a year ago. The tonnage here has increased 50 per cent. Disengaged tonnage here is 6,490, against 3,330 tons a year ago for the same day, and engaged tonnage for the day has increased from 17,275 tons to 26,604 tons, an increase of tonnage in port from 36,695 tons to 33,103 tons.

PHOSPHOROUS IGNITES ON LINER IN BAD GALE

Bristol, Nov. 10.—The Canadian Pacific Railway liner Montcalm at Avonmouth reports having encountered very severe weather in mid-Atlantic, as a result of which a derick was broken and one of her life-boats lost. In falling, the derick came in contact with several boxes of phosphorous on the aft-deck. The phosphorous ignited and it was only by the promptitude of the men in jetting down with the boxes remaining that the ship's cargo was saved. Some of the men have sustained slight burns but the ship herself was almost undamaged.

SPORTING NEWS

TEAMS FOR FIRST TEST MATCH

VICTORIA FIFTEEN VERY STRONG

Terminals Will Have Veteran Aggregation; Fine Work Features Saturday's Game at Oak Bay

Subsequent to the playing of the Rugby test game on Saturday, the team for the McKechnie Cup game next Saturday was chosen by the selection committee. It will be as follows:

Three-Quarters:
Left wing—Carew Martin
Left inside—E. Gillespie
Right inside—P. Hill, Victoria Welsh
Right wing—D. M. Grant
Stand-off half—G. C. Grant
Wanderers
Scrum-half—J. Shires
Forwards—H. Watkins (capt.)
Welsh
Forward—G. Heiney
Forward—R. Gillespie
Forward—W. J. Baum
Forward—J. B. Acland
Forward—W. F. Patterson
Forward—G. E. Carstairs
Forward—E. McCallum
Students
Reserves—Bennet, Hendra, B. Scott, Meredith, Gray and Clark.

The Vancouver team was selected yesterday for the McKechnie Cup game next Saturday as follows:

Back, Cameron: Three-quarters, Moffatt, Baker (capt.), Grimmer, Hoult; half-backs, McRoberts, Caddell; forwards, Bell-Irving, Smith, Scott, Suchs, McDiarmid, Wedderburn, Richardson and Bryant.

Saturday's Test.

Though somewhat rugged in the main, Saturday's test game at Oak Bay was full of bright incidents that contrived to make the game interesting to a good company of onlookers, and revealed more open three-quarter work than has been seen in a single match this season. The players were divided into A and B teams, without regard to club colors, and they were consequently one or two strange mistakes in passing through the confusion.

Though not appearing much stronger in the field, the A's possessed greater scoring ability, chiefly owing to the superiority of their backs, and rounded up 23 points before no side sounded. D. M. Grant was an outstanding figure on his side, for though he did not get clear away on many occasions, being too well watched for that, he started many movements which were instrumental in bringing gains to his side. Shires also played a very fine game at scrum, and his kicks into touch were always safe and clean.

The two chief features of the game, however, were magnificent drop kicks, one in each half, the first by Bennett, who with the utmost composure dropped a perfect goal from a very difficult angle; the second was by Gillespie from a penalty forty yards out that dropped clean between the posts. Grant's place kicking was also a feature.

Tackling Very Strong.
One matter that augurs well for Victoria's success in the McKechnie Cup games, was the sure tackling by both sides. Seldom did a three-quarter on either side fail to bring down his man.

and both backs were excellent in this respect.

There were two faults noticeable among the forwards. The first was that on several occasions one or the other side kept packing high in the scrums; the second that in the loose the men kept kicking the ball too far ahead, therefore militating against the value of the dribbling. Again among the three-quarters the fault was noticed of keeping too much in a line. Several times the wing men would come up on a level with the inside men, who was running with the ball, thus making a good pass impossible.

Apart from these things, however, there were many excellent features. Hind showed himself to be a wing three-quarter of great ability, though a little weak in tackling, being inclined to go high for his man. Grant was, as usual, excellent. On the other side Hendra was the most noticeable man on the side, though he is scarcely heavy enough to play inside three-quarter. However, he gave a fine exhibition, and has developed a distinct serve. Bailey, the Welsh half, was overshadowed by Morton and Shires, though he nearly got through on one occasion.

Baum showed an excellent example to his side by cross-kicking, a procedure which never failed to bring a distinct advantage. The three might have indulged more in tactics of this nature. In forwards there was so much talent that it would be hard to individualize. Blaney Scott's height and pace might have caught the eye of the selectors. He worked like a Trojan all the time, and was invaluable in the line-outs. Gillespie's kicking was even more accurate than usual, which is saying a good deal. Baum played a heady game, and Acland was also conspicuous.

Gallher blossomed out as a full-back in fine style, and his miss of Gillespie was the only occasion when he failed to pull down his man.

Intermediate Rugby Practice.

The J. B. A. A. Intermediate Rugby players will hold a practice at the club at 8 o'clock to-morrow evening. The following players are requested to be on hand: Losee, S. Martin, Bensen, G. M. Irwin, C. Catterall, Lees, Dorman, Myers, McBrady, C. Knox, Travis, Wilson, Platt, Raymer, Falconer, Roberts, Newman, Chavannes, Hiscocks, Heald, Whyte, Buckman, Diespecker, Beasley, Carroll, Bendroit, Willis, Carroll and K. Dixon.

STANFORD CAPTURES HISTORIC STRUGGLE

Stanford Field, Cal., Nov. 10.—Stanford defeated the University of California Saturday, 13 to 8; but it was a furious battle throughout. The veteran California scrum relied upon by the blue and gold were outplayed for a large part of the game. In the last twenty minutes of play California made a desperate rally, and only the work of Carroll, Stanford's centre three-quarters and the veteran of many Australian Rugby games, saved Stanford from the possibility of a tie, or even an eleven-hour defeat. The whole California team was fighting furiously to cross the Stanford line when the game ended.

Over 20,000 persons saw the game. Many of the players suffered slight injuries, but none was seriously hurt.

ALL-BLACKS ARE WINNERS ONCE MORE

Los Angeles, Nov. 10.—The New Zealand All-Blacks Rugby team found the fifteen of the University of Southern California easy when the teams met Saturday in Bovard Field. The visitors won 40 to 6.

The scoring record of the touring footballers to date follows:

For	Agst
Olympic Club	19
University of California	21
Barbarians	30
Stanford University	54
Stanford University	56
Santa Clara University	42
University of California	28
University of Nevada	55
University of California	33
St. Mary's College	26
University of S. California	40
Totals	424

Phoenix Stout, \$1.50 per doz. qts.

REMARKED ON THE SIDE

Olympic Fund is Growing Rapidly.
Despite the discouraging start which the Olympic fund was given in the old country, the gratifying news has been handed out by the committee in charge, that the contributions are now flowing in satisfactorily. It is the intention of the committee to abandon the work should there be less than \$125,000 on hand by the New Year, but by the manner in which this same body is going about and selecting a number of trainers, it would seem as if the success of the project is assured. The agitation has resulted in unprecedented athletic activity in England, especially amongst the college students, many of whom have already shown record-breaking form. The scheme for an Empire team appears to have fallen through, but there is little doubt but that the colonies will be found with the old country athletes when the Berlin games open in 1916.

Victoria Rugby Selectors Have Done Good Work.
The team chosen by the Victoria Rugby Association for the game with Vancouver next Saturday will no doubt meet with the approval of all who have watched the games at Oak Bay with any closeness. The work of selection is at all times a difficult one, and there is no doubt that on this occasion at least the committee have done their work thoroughly and well. They have got together a team which looks on paper the best that Victoria has ever had to represent her, and one which on current form should bring back the cup to this city. There are several new faces in the team; Spencer's selection at full-back was a foregone conclusion. He will be a tower of strength to the side. Hill at three-quarter has earned his place by sheer merit, while Earl Gillespie has uncovered fine form in all the matches he has played in. Patterson and McCallum are forwards who may be relied on to do good work in the scrum, both being speedy as well as weighty. The selection committee is to be heartily congratulated on the results of its labors.

LINDSAY HERE

BERT LINDSAY

Victoria goal-tend, who arrived in the Capital Saturday night and will become a permanent resident of this city. Lindsay is again slated to guard the nets of the local septette and from the excellence of his work last season should easily retain his title of the classiest goal tend in professional hockey.

It is expected that Bob Genge will arrive here to-morrow, while Silent Ulrich is now on his way from Winnipeg. The signing of Dunderdale means that the locals will have exactly the same line-up with the exception of Progers. It is the intention of Manager Patrick to use Genge at cover point, with Small and Rowe on the wings, Paulin and Dunderdale being in mid-ice. Ulrich and Morris will be carried as utility players. The local club will get down to hard work to-morrow afternoon, when the first practice is called.

Preparations are being completed for the huge fancy dress carnival which is to be held at the Arena on Friday night. Norval Bappte will lead the grand march, while special music will be rendered for the occasion. A committee of well known local skaters will judge the costumes and handsome prizes have been donated for the different winners.

TIGERS TAKE HOLD ON RUGBY TITLE

Interprovincial Union.		Points
	W. L. D. F. A.	
Hamilton	5 1 0 163	30
Ottawa	4 1 1 71	87
Argonauts	2 2 1 81	35
Montreal	5 0 2 127	104
Intercollegiate Union.		Points
	W. L. F. A.	
McGill	4 1 156	28
Toronto	2 2 102	45
U. of C.	2 1 56	35
Queen's	5 0 2 119	

Montreal, Nov. 10.—Hamilton Tigers took a good hold of the "Big Four" Rugby title Saturday, when they defeated Argos at Toronto by a 21 to 7 score. Eight thousand people were present.

In the other "Big Four" game Ottawa had little trouble in defeating M. A. A. by a score of 19 to 9. McGill University came through with a 48 to 12 victory over Royal Military College of Kingston.

Varsity won as they pleased from Queen's at Kingston by 20 to 9, and next week's game at Toronto between McGill and Varsity will decide the intercollegiate title for another year. A win for McGill gives them another championship, while a win for Varsity means a tie with a play-off.

WANT CARPENTER TO MEET DAVE SMITH

Sydney, N. S. W., Nov. 10.—Promoter "Snowy" Baker has cabled an offer to Georges Carpentier, the French champion, for a match here with Dave Smith, Australian middleweight champion and claimant of the world's title. Sam McVea, knocked out Professor Stevenson Friday night in a novel match. The men first engaged in jiu jitsu and then turned to boxing. McVea stopping the Australian. The match was for \$500 a side.

Phoenix Stout, \$1.50 per doz. qts.

A Whale of a Sale

BEES TO ASK FOR MORE HOME GAMES

Manager Delmas Rounding Up Bunch of Youngsters; Annual Meeting Called Dec. 21

While the officials of the Victoria Baseball Club have not definitely settled upon their attitude at the annual meeting of the Northwestern Baseball League, which is to be held at Seattle on December 21, it is an assured fact that the management of the Bees will ask for twelve home weeks of baseball at the annual meeting of the A. A. U. of C. and he will press the claims of the Coast union for the 1914 tournament.

A number of important matters in which the British Columbia union is interested will come up at the annual meeting of the Canadian governing body.

SIX-DAY RACE.
Boston, Mass., Nov. 10.—Joseph Fogler, of Brooklyn, and Ivor Lawson, of Salt Lake City, won the six-day bicycle race.

Train at Home.
Victoria will again train on the home lot, and it is said that the other clubs

SPORTING NEWS

(CONTINUED)

ONTARIOS BOUGHT OTTAWA PLAYERS

Annual Meeting of the N. H. A. Held; Lolonde for the Coast

Montreal, Nov. 10.—The annual meeting of the National Hockey Association here Saturday was a quiet enough affair, the biggest sensation being that the Ontarios, formerly the Tecumseh, had bought Cliff Benedict, Fred Lusk and Alf Denison from Ottawa. The Ontarios were very anxious to secure Benedict.

The association formally ratified the agreement between the Ontarios and the N. H. A., which will stand for a year at least.

The association refused to accede to the request of the Maritime Provinces Hockey Association to be classed as a major organization.

Changes in the playing rules dealing with the return of the old system of ruling players off instead of finding them and a new agreement with the Maritime Association were discussed, together with the schedule. All these questions were laid aside to be definitely settled at the next meeting.

President Emmett Quinn was re-elected for another year. George Kennedy announces that Newsy Lalonde had received a letter from the Ontarios asking him to report at once in the west, and that there was little doubt but that this star would be seen again on the coast during the coming season.

BRETHOUR SMASHES TEN MILE RECORD

Sidney, Nov. 10.—The annual ten-mile road race run under the auspices of the Sidney Athletic Club, Saturday, was won by Ira H. Brethour in 57 min., 45 sec., on a course that was in places ankle-deep in mud. Farah Fing, a Hindu, finished second; Albert Gehrke, third; and W. Tate, fourth. Elmer John took the lead at the start but was forced to give way to Brethour

after the first quarter of a mile. The latter retained the lead for the balance of the course, gradually increasing the distance between himself and the field until the finish, when he came in nearly eight minutes ahead of Fing. Brethour beat the time of Charles Brown, of Victoria, who won the race last year, by one and one-half minutes, which was considered remarkable, in the heavy course, and the fact that the race was one-half mile longer this year than last, when it was a trifle short of ten miles. The winner's running and his fresh condition at the finish, stamp him as one of the best runners in the province.

The runners were encouraged by crowds who gathered all along the course, and it is safe to say that, from the interest shown the race will be a fixture, and that the entry list next year will be much larger.

SOCCER LEADERS

SENIOR LEAGUE				
Wards, 4; 8896 of England, 1.				
Wests, 6; Thistles, 1.				
Bays beat Rangers by default.				
League Standing.

WARDS LUCKY TO BEAT S. O. E. TEAM

Wests Won Easily From the Thistles; Saturday's Soccer Results

It was a case of a grand team being Saturday when the Sons of England went down to defeat before the Wards, 4 to 1, at Beacon Hill. The Wards chose the south goal with the wind against them at the start and during the entire period the Sons pressed them hard but succeeded in tallying but one goal while the Wards also netted one. It was only the Sons' wild shooting that lost them the game, while the Wards' shooting was perfect. The Wards scored first, with a rush down the field and Pearson netted the tally. Not long after the Sons equalized the score, after passing the ball around in the goal mouth, Wells sent an easy roller past Barnes. The Sons of England supporters went wild with excitement. Again it looked as though the Sons would score. They brought the ball up the field with a rush and with an open goal, Wells booted the ball over the bar. The whistle blew for half time with the Sons pressing hard.

Wards Score Three.
The wind was increasing in the second half and the Sons had a hard job stopping the Wards' rushes, which they succeeded in doing until the last ten minutes of play, when they went to pieces and the Wards netted three goals. In this period Referee Thompson.

The Rangers failed to put in an appearance for their game with the Bays at Oak Bay and the referee awarded the game to the latter by default.

If all the railway companies in Great Britain adopted electric traction it is estimated that no fewer than 5,000,000 tons of coal would be saved every year, while among other advantages would be a purer atmosphere as well as cleaner carriages and stations.

Cars for Hire, \$3.00 per Hour. R. Walter Ure, phone R. 1118.

son let Taylor get away with a deliberate foul. F. Kerley made a beautiful rush down the right wing and in passing the Ward back, Taylor deliberately tripped him. Play was called for a few minutes while Kerley was being attended to. The referee failed even to give the Sons a foul.

Penalty Goal.
In a mixup in the goal mouth, and one Sons' back hit the ball with his hand, and the Wards were awarded a penalty. Nichols took the kick and placed the ball into the net. This encouraged the Wards and they pressed the Sons hard; a corner resulted and Wilkie, who took the kick, placed the ball into the goal mouth, and Pearson netted the Wards' third goal. Another corner followed and the same combination resulted in the fourth and deciding goal of the game, Wilkie to Pearson.

The work of the Kerley brothers, Greenhalgh and Beach for the Sons, was outstanding, while Allen, Pearson and Wilkie were the Ward stars. Archie N. Muir was absent from the Wards' lineup; he is suffering from a bad ankle.

The teams:
North Ward—Goal, Barnes; full backs, Newlands and Taylor; half-backs, Davidson, Thomas and Brown; forwards, Wilkie, McGregor, Pearson, Nichol and Allen.

Sons of England—Goal, Hunt; full-backs, Hymers and Greenhalgh; half-backs, Martin, Blendell and Beach; forwards, Kerley (F.), Gudgeon, Wells, Kerley (A.) and Douglas.

Referee, Thompson.
West Victorious.
Victoria West had little difficulty in defeating the Thistles Saturday at North Ward park. The final score was 6-1. From the off-set it was plain to see that the Scots were outclassed by the champions, and it was a question of how many the green shirts would run up. The Wards put up their best game of the season, both in attack and defence, Cyril Baker played a wonderful game on the forward line, his rushes and shooting being the feature of the game, while the work of the backs was also good. Robertson, the Wards' custodian, is on the sick list, and Bobby Stewart, a half-back, substituted and played a brilliant game between the posts. Robertson, however, will be back in the game by next Saturday, when the Wards and Wests clash.

The Scots just avoided being whitewashed, while the Wards, after securing a long lead, played on the defensive.

CAREFUL ANSWER.
"I suppose by this time, Bobby, you know both French and German," said the visitor. "Well, sir," said Bobby, "I can't say I know 'em, sir, but I'm aware of 'em."—Harper's Bazar.

OFFICIAL LIST OF STARS AT TENNIS

Tyler Captures Championship; T. C. Fulton Proves a Surprise

With B. P. Schwengers in the Old Country, it was an easy matter for Joe Tyler, the Spokane racquet expert, to wade through the opposition and once more claim the title of the best singles player in the northwest. Had the famous Victoria star refused to take part in the Davis cup games it would have been different, for there is not a tennis enthusiast on the coast who will admit that Tyler is a better player than Schwengers. On the season's play, the Spokane star richly deserves the title, having met defeat on but two occasions, and as it happened both of these reverses were administered by Canadians.

There were no surprises in the doubles. Tyler and Brain, of Spokane, played a consistent game together in all of the important tournaments, and the committee ranked this pair first.

The official ranking, as announced by the committee, composed of E. Cave-Brown-Cave, Vancouver; S. L. Russell, Seattle, and W. A. Goss, Portland, and the ranking, follows:

- Singles.**
1—J. C. Tyler, Spokane, Wash.
2—T. C. Fulton, Victoria, B.C.
3—H. C. Evans, Vancouver, B.C.
4—A. S. Milne, Vancouver, B.C.
5—S. L. Russell, Seattle, Wash.
6—L. K. Richardson, Portland, Ore.
7—W. A. Goss, Portland, Ore.
8—H. Kelleher, Seattle, Wash.
9—H. G. Garrett, Victoria, B.C.

Doubles.
1—J. C. Tyler and F. Brain, Spokane, Wash.
2—H. C. Evans and A. S. Milne, Vancouver, B.C.
3—W. A. M. Burney and S. L. Russell, Seattle, Wash.
4—T. C. Fulton and H. G. Garrett, Victoria, B.C.
5—W. A. Goss and H. S. Wells, Portland, Ore.

At the annual meeting of the Victoria Lawn Tennis Club to-night a number of important business matters will come up for discussion, among them the extension of the grounds on Fort street, which will be made before the opening of the 1914 season. The meeting will be called at 8.30 p.m.

An End to the Curse of Wearing Worthless Trusses

No More Rupture Trouble. 60 Days' Trial To Prove It

You Don't Have to Risk A Penny
Here is something absolutely guaranteed to keep your rupture from coming out. And you can try it sixty days—make a thorough prove-it-to-you test—without having to risk a penny. If it doesn't hold—if it doesn't keep your rupture from bothering you in any way—then it won't cost you a single cent.

The Only Thing Good Enough To Stand Such A Test
You know as well as we that you can't tell anything about a truss or anything else for rupture merely by trying it on. That's the worst of going to a druggist or local truss fitter's.

A truss or so-called "appliance" may seem all right when you first put it on, and afterwards prove utterly worthless. The only way in the world you can make sure of exactly what you're getting is by a 60 days' trial—a thorough day-after-day test.

And our guaranteed rupture holder—the famous Cluthe Automatic Massaging Truss—is the only thing of any kind whatever for rupture that you can get on sixty days' trial, the only thing good enough to stand such a long and thorough test.

Something Nothing Else Does
The Cluthe Automatic Massaging Truss is so utterly different from anything else for rupture that it has received eighteen separate patents.

It provides the only way ever discovered for overcoming the weakness which is the real cause of rupture.

Just how it does that—entirely automatically—is all explained in the free book.

Will Save You From Operation
The Cluthe Truss has so thoroughly proved its merits that physicians in all parts of the world and surgeons in the U. S. Army and Navy now recommend it instead of advising operation. It has brought complete recovery in hundreds of cases after operation has proved a failure.

Besides Mr. McMillan there are R. H. Gore, Rowland Cox, R. L. Hawkins and J. T. Fortier at the Dominion and some 35 others scattered among the different hotels.

"WITHIN THE LAW"

Margaret Illington, fresh from a remarkable run of several months in Chicago, where it was necessary to play a matinee each day the closing weeks because of the record-breaking demand for seats, opens at the Victoria theatre to-night in Bayard Veiller's absorbing underworld melodrama, "Within the Law," which is the current dramatic sensation of England and Australia, as well as America.

This drama, which is credited having created a more lasting and world-wide impression than any stage offering in a generation, is one of those rare plays of such tremendous power and absorbing interest that it appeals alike to all classes, the rich and the poor, the high and the low, and, as one critic wrote, "has an audience wherever there is a human heart."

WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department.

BIG CONGREGATIONS AT CITY CHURCHES

Sermons on Temperance and
to Introduce Week of Prayer
Draw Many

Yesterday was World's Temperance Sunday, and was also the first week in the Y. M. C. A. world's week of prayer, so that a large number of the ministers of the city yesterday preached sermons suitable to the occasion, in the latter case, by request of the Y. M. C. A., the text chosen being Romans 1, 16: "For I am not ashamed of the gospel of Christ: for it is the power of God unto salvation to every one that believeth; to the Jew first, and also to the Greek."

Rev. R. J. Thomson, of Nanaimo, who occupied the pulpit of the Metropolitan church, both morning and evening yesterday, preached on "Immortality" in the morning, a very large congregation being present. In the evening he preached to young men, during the course of which he told the story of George Williams, the founder of the Y. M. C. A., who when he first went to London pursued a worldly course until he one day drifted, quite by chance, into a place where services were being held. He was converted, and from that conversion sprang the interest in social work, and the salvation of his fellowmen, which resulted in the founding of the great organization which is now one of the most influential for good in the whole world.

Rev. Dr. Clay, at St. Andrew's Presbyterian church, preaching in the evening from the same text (Romans 1, 16), emphasized throughout his sermon that the Gospel of Christ was the only power that could uplift and protect; neither the church nor the Y. M. C. A., apart from Christ, could lead young men to do aright. It required the power of God unto salvation.

Big congregations were present both morning and evening at the Centennial Methodist church, when Rev. F. R. Green occupied the pulpit, preaching in the morning on "Temperance and the Abolition of the Saloons." In the course of this Mr. Green made special reference to the law which is to come into force in January next in connection with the saloons. He gave an object lesson for the benefit of the children present, telling of the character and effects of alcohol, and, by applying a lighted match to the spirit and burning it, demonstrating the manner in which alcoholic liquor burned the body. The only cure for a man addicted to the use of drink was to be found through Jesus Christ, who would give strength to resist temptation. The curse of the liquor traffic was set forth, and the speaker expressed his gratitude that a new law was shortly to be put into force. He also called attention to the possibility of a request for extension of time, and urged on his congregation the need of seeing that the law was enforced.

In the evening Mr. Green spoke to a congregation largely composed of young men, and from the text in Romans 1. It had, he said, required a prophetic vision on the part of the Apostle Paul to speak such words, taking into consideration the time in which he lived, when Christianity was a new and despised sect, and most of its followers of the humble class. Since Paul's time, however, the influence of Christ's teachings had accomplished wonderful things in the world. The Gospel stood to-day for the saved and the unsaved; it was the ray of hope

that drew back the sinner from the very gates of despair. The God who could overthrow paganism and reconstruct Empires could also disentangle and uplift the man who had fallen into the snare of sin.

At Emmanuel Baptist church Rev. William Stevenson, preaching from the text: "For My Yoke is Easy, and My Burden is Light," St. Matthew 11, 30) in the evening addressed the young men of his church. There was, he said, no doubt that Christ had given this message to the toilers on the land, whose lot was hard, and whose wages were poor. The message he had for them was figurative, and suited to their knowledge, and in the text was an assurance which would give them a new motive in life.

Mr. Stevenson, using six of Tennyson's knights, showed the two kinds of life that men may live, and pointed out that while the truly noble character had a strenuous life, it was easy for him, because of the high purpose always in view. Christ could bring the best out of the man's life, and make it useful and successful.

The evening services at the First Presbyterian church were in charge of Rev. Leslie Pidgeon, of St. John's, Vancouver, who exchanged with Mr. Inkster, and here also the services were preached especially to young men. The outstanding point of the speaker's address was that every man in the world was for God, whether he was consciously so or not. The one thing for every young man to do was to make the best of the opportunity which God placed in his way—for it came sooner or later.

Last evening at the Congregational church, Rev. Herman Carson spoke on "Christianity or Socialism," in the course of his sermon referring to the reaction which had taken place within the church against the spirit of supreme individualism which has been so dominant during the past few years. Mr. Carson referred to the development of work among young men, pointing to the numerous brotherhood movements which had sprung up within the church as well as outside it. Special mention was made of the Y. M. C. A. organization, and the kindred organization for young women, the Y. W. C. A., both of which were fine examples of the newer spirit which has awakened and the purpose of which was the reaching out of a helping hand to one's fellows.

CADETS HAVE FIELD DAY.

Engagements at Beacon Hill Result in a Win Each for Attackers and Defenders.

Both attackers and defenders won in the cadet field day at Beacon Hill, breaking even as to the result of the two "actions" they engaged in. There were about one hundred boys from the Central, Sir James Douglas and other schools in the affair.

The defending force, under Lieutenants A. Moore, T. Taylor, N. Jones and R. Bassett, left the Central school grounds at ten o'clock and took up a position on the east slope of the hill. The attacking party was under the command of Major C. A. Wille, Captain W. B. Hutchison, Lieutenants T. N. Hibben, H. Pickard, C. B. Whitney, C. C. Campbell and W. Lewis. Lieut. W. J. Wilby, of the corps of guides, was referee.

After a sharp engagement of ten minutes the attacking party annihilated the defenders by a clever flanking movement led by Major Wille. This action was followed by another, the two parties being placed back in position. The defenders were on their mettle, and fought a rearguard action, avoiding capture and putting out of action a sufficient number of the opposite party to make the attack a failure.

MEETINGS

Central Union.—The Central Union, W. C. T. U., will meet on Tuesday afternoon at 2.30 in the Y. W. C. A.

Y. W. C. A. Directors.—On Friday afternoon at 3 o'clock the board of directors of the Y. W. C. A. will meet in the rest room of the association.

Municipal Chapter, I. O. O. F.—There will be a meeting of the executive of the Municipal Chapter of the Daughters of the Empire on Thursday morning at 10.30, in the Alexandra Club.

Frances Willard Union.—The Frances Willard Union of the W. C. T. U. will meet on Tuesday afternoon at 3 o'clock in the home of Mrs. William Mitchell, 3078 Washington avenue.

Political Equality League.—There will be good music and speeches at the meeting this evening of the Political Equality League, which is to be held in the rooms of the King's Daughters, 721 Courtney street. The meeting is public.

Meet This Evening.—The Y. P. S. C. E. of St. Columba church, Oak Bay, are holding their monthly social gathering this evening in the church on Hulton street. A short programme has been arranged and refreshments will be served. All who wish to attend will be welcomed with their friends also.

To Hold Bazaar.—The Ladies of the Psychical Research Society are making final preparations for their bazaar, to be held in Foresters' hall, Broad street, on November 21, commencing at 3 o'clock, and continuing throughout the afternoon and evening. A substantial tea will be served, and a concert will be held in the evening.

St. Andrew's Ladies' Auxiliary.—The monthly meeting of the Ladies' Auxiliary of St. Andrew's Society will be held in the A. O. F. hall this evening at 8 o'clock. Business in connection with the "At Home" to be held on November 27 is to be discussed. There will also be an initiation of candidates. Mrs. Ward, the president, will preside.

Sidney Lodge, I. O. G. T.—This evening at 7.15 a special train will leave the Victoria & Sidney railway station, Blanchard street, for Sidney, calling at Hillside, Cloverdale and Royal Oak on outgoing and return journey, this being in order that members of the Victoria and District lodges who wish to attend the anniversary of Sidney lodge, I. O. G. T., may do so. The train will return from Sidney at 10.30.

Theosophical Lectures.—Under the auspices of the Theosophical Society, Mr. L. W. Rogers, international lecturer for the society, will deliver three lectures at the King's Daughters' rest room, Courtney street, this week. The first, on Friday night will be on the subject: "Do We Survive Bodily Death?" the second, Saturday night: "Bisibile and Invisible Evolution;" and third, Sunday afternoon, at 3 o'clock: "The Life Sublime." The evening lectures will commence at 8 o'clock.

Organ Recital.—An organ recital will be given in the Centennial Methodist church next Wednesday, at 8.15 p. m. No charge will be made for admission, but a voluntary offering will be taken in aid of a member of the choir who has been seriously ill

Interesting News From the Blanket and Com- forter Department

Fine New Scotch Blankets

If you are interested in Blankets of fine quality, we would advise you to inspect our stock before buying elsewhere. The stock is large and varied and represents the finest manufactured in the great mills of Scotland. We have them in every required size and weight from \$3.60 to \$10.00

Eiderdown Comforters in Great Profusion

These Comforters are all filled with specially cleansed and purified down, making a comforter that is both warm, sanitary and light. We have them in a large range of prices to suit all purses. Prices from \$7.50 to \$25.00

Famous Maish Comforters

Made of a splendid quality Silkoline, and filled with cotton prepared by a patent process. They're built up of layers of fine, long fibred cotton interlocked into one piece. These are extremely light and as warm as toast and serve every purpose of a good down comforter. Prices, \$4.50, \$5.00 and \$8.50

Juvenile's Pyjamas

Just the right thing for the youngsters to wear these chilly nights, for they are beautiful and warm, and they'll take great pleasure in wearing them, too, for every one is decorated with numerous dogs heads. They are made from a splendid quality of flannel-ette that will stand lots of wear. We have them in all children's sizes from \$1.75 to \$2.25

Special Reductions in Millinery

We have gathered together a large number of ready-to-wear Hats, some that sell in the regular way for \$12.50, and have decided to put them on the bargain table for a few days. This lot includes fashionable models in all latest shades. Prices for a few days \$5.00

Semi-trimmed and Ready-to-wear Hats in a large variety of shapes and trimmings. We require the space these hats occupy for Christmas stock, so we have decided to clear them out at the special price, \$2.50

Special Prices on Heavy Coatings and Suitings

Our fine stock of heavy Winter Coatings is disappearing fast. Nevertheless there is still a good assortment in all popular colorings in shot astrachans, chinchillas, plaids, selfs, and reversibles. These are extraordinary values. Regular prices, \$1.25 to \$3.75 yard. Special price, per yard, \$1.00 to \$3.00

Scotch and English Tweeds, in all colors and mixtures—
Reg. 75c yd., 45 inches wide. Special per yard \$60¢
Reg. 85c yd., 46 inches wide. Special per yard 70¢
Reg. \$1.25 yd., 50 inches wide. Special per yard \$1.00

Women's Pyjamas at Popular Prices

Flannelette Pyjamas, in double-breasted style, in a variety of fancy striped colorings. Suit \$2.25

Mercerized Cotton Pyjamas, in double-breasted style, in mauve, blue and white; fasten with fancy silk frogs. Suit \$2.50

Pyjamas, made of fine seer-sucker; very serviceable and beautiful. Colors mauve, blue, and white. Per suit \$3.25

New Arrivals in Embroideries and Flouncings

We have just received a fine shipment of fine cambric embroideries and flouncings which we are now offering for sale at very moderate prices. They are all new designs and are embroidered on the best quality of cambric.

Fine Cambric Corset Cover Embroidery in a variety of eyelet designs, 18 inches wide. Per yd. 25¢

Flouncing, with all-overs to match, 27 inches wide. Per yd. 40¢

Embroideries, 3 1/2 to 12 inches wide. Per yard 12 1/2¢

Embroideries, 2 1/2 to 4 1/2 inches wide. Per yard 8 1/2¢

Embroideries, 1 inch to 3 inches wide. Per yard 6 1/2¢

Flannelette Nightgowns

Made from a warm, soft finished flannelette, in white or pink. They come in either slipover style or fasten on the front. All are prettily trimmed with embroidery; three-quarter sleeves. Good value at \$2.25 and \$1.00

Dainty Waists

Temptingly Priced

These New Waists are indescribably smart and more chic than ever. The enviable reputation of Gordons' waist department has been earned by showing the smartest styles at the right time and at prices that are lower than such qualities usually sell for.

Exquisite Waists of either crepe de chine or messaline silk in all popular colors. Gordons' price \$5.75

Beautiful Net Waists trimmed with pearls and silk lined. Splendid value for \$7.75

Hand-worked Irish Crochet Lace Waist worked in a beautiful design. A handsome piece of work. \$45.00

for several months. The organist will be assisted by Miss Palmer, Miss B. Palmer, Miss Beacock and Mr. Bryant. A good programme, covering a wide range of composers, has been chosen.

Dominion Civil Service Exams.—The Dominion Civil Service examinations will begin to-morrow afternoon at 1.30 in the public works department rooms, Post Office building. The first will be devoted to the preliminary examinations, and Wednesday and Thursday to the qualifying examinations. Dr. Campbell, as usual, will be the presiding examiner.

To Help Sailors.—At the services at most the city churches next Sunday, which will be observed as Sailors' Sunday, envelopes will be found for special collections in behalf of the Connaught Seamen's Institute. Sermons suitable to the occasion will be preached in most of the pulpits, and a special Thanksgiving service will be held in Christ Church cathedral on Sunday afternoon, when all who are interested in the work are urged to attend.

Y. W. C. A. Bazaar.—The following ladies will have charge of stalls at the Y. W. C. A. bazaar to be held on November 19. Plain and fancy work: Mrs. Leiser and Mrs. Gould; home-

made candy, Mrs. Fred Nivn; plants and flowers, Mrs. Hasell and Mrs. Holman; home-made cooking, the Agnes Deans Cameron Chapter, I. O. O. F.; fishpond, Mrs. Kingham; lot programme, Mrs. Collis. A short programme will be given during the afternoon, and a number of the leading vocalists and instrumentalists of the city will contribute numbers for the evening proceedings. Tennyson's "Dream of fair women" which proved such a success at a recent entertainment, will be repeated. The following are among the patrons: The Lieutenant-Governor and Mrs. Patterson, Sir Richard and Lady McBride and Mayor and Mrs. Morley.

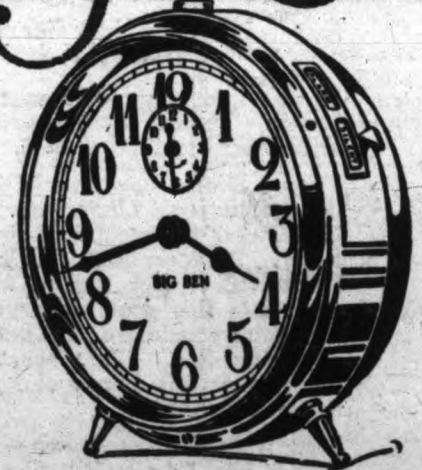

S. P. C. A. Annual Meeting.—The annual meeting of the S. P. C. A. will be held in the cafe of the Alexandra Club on Wednesday evening next at 8 o'clock. The chair will be taken by Lindsey Crease, K. C. The Dean of Columbia and others will address the meeting.

Girl Guides' Concert.—The Girl Guides and Boy Scouts of the Congregational church will give an interesting afternoon and evening performance at the Congregational church next Wednesday. In the afternoon under the joint auspices, there will be a sale of work and tea. In the evening there will be a display of drills by the vari-

ous troops, and a demonstration in first-aid work, bandaging, etc., will be given by Buffalo patrol; the 1st troop Girl Guides will give a skipping drill;

and there will be an illustrated story and other interesting numbers. It is hoped that the public will show their interest by being present.

SLEEP DISTURBING BLADDER WEAKNESS

BACKACHE-RHEUMATISM, QUICKLY VANISH

Even Most Chronic Sufferers
Find Relief From Few
Doses of Croxone

Croxone soon relieves such conditions because it reaches the very roots of the disease. It soaks right into the stopped up, inactive kidneys, through the walls and linings; cleans out the little filtering cells and glands; neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles to scratch and irritate and cause rheumatism; heals the inflamed membranes of the bladder, and cleans out and strengthens the stopped up, lifeless kidneys so they

can filter and sift all the poisons from the blood, and drive it out of the system.

So sure, so positive, so quick and lasting, are the results obtained from the use of Croxone, that three doses a day for a few days are often all that is required to end the worst backache, regulate the most annoying bladder disorders, and overcome the numerous other similar conditions.

Croxone is so prepared that it is practically impossible to take it without results.

An original package cost, but a trifle, and all druggists are authorized to return the purchase price if Croxone fails to give desired results, regardless of how old you are, how long you have suffered, or what else has failed.

EASTERN CANADIAN LETTER

BY B. B. COOKE

Toronto, Nov. 7.—The jobbers and the manufacturers of the city of Toronto are disturbed at present at the prospect of a serious change in the Canadian business world which is scheduled to take place at midnight of December 31. This change concerns more than Toronto—every important Canadian city in fact—but Toronto being a jobbing centre and a point where there are many factories, is especially interested. It is not certain whether to rejoice or be cast down, but it is inclined to the latter.

At the end of this year the Grand Trunk and the Canadian Pacific Railways sever their connection with four big cartage companies in this city: the Shelden Company, the Dominion Transport Company, the Hendrie Company and the Verral Company. For fifty years these companies, or their equivalent, have collected and distributed the cargoes for the railways, have weighed and classified the goods, have co-operated with the freight handlers at the terminals in unloading their wagons where the freight could best be distributed to the different cars and in unloading the cars of their incoming goods in such a way as to help the railways to get the sidings clear of standing cars in the shortest possible time. Shipper and consignee have been able to send consignments from shipping room door to receiving room door with a minimum of trouble; the freight fees and the cartage fees have been collected on the one and the same bill. On the other hand, the railway companies have, according to the evidence given before the Dominion Board of Railway Commissioners, offset the costs of the cartage concerns by annual subsidies or financial grants in one form or another, thus allowing the shippers and consignees to have the services of the carters at an alleged minimum fee. This is the system which is about to be broken. At the end of the year the railway companies will no longer work hand in hand with the cartage companies; they will withdraw their subsidies. Instead of these being one closely working organization between shipper and consignee, there now will

be three: the cartage concern which takes the goods to the freight shed, the railway that carries it to the distant town or city, and the cartage concern there that transfers the goods from the terminal at that point to the man to whom the goods are being consigned. Instead of paying one bill, the man receiving the goods—who is usually the man who pays these charges—will have to settle for three bills, or at least for two, in case he is able to compel the shipper to pay the cartage charge at the shipper's end of the line. A custom of fifty years' standing is thus to be broken, and the change will affect business from coast to coast. The transportation expert of the Canadian Manufacturers' Association and the traffic department of the Toronto Board of Trade have been studying the question for months past, just perhaps as other wide-awake boards of trade have been doing elsewhere in Canada. It was on their solicitation that the change, which had been scheduled to take place at the first of October, has been postponed to the end of the year, when it will not wreak the havoc on trade which its introduction is thought likely to create, for the time being anyway.

The cartage companies in Toronto represent a capital investment of over three million dollars. They employ over eight hundred heavy Clydesdales and over five hundred men. They handle each year thousands upon thousands of tons of goods. They announce that they do not intend to go out of business just because the railways withdraw their support. But they intend to raise their rates. They say—and what they say probably represents the opinion of cartage men all over the Dominion—that they will now begin to get a fair return for their services from the public and will demand good treatment from the railways and improved shipping facilities. To the shipping public the change means first of all increased charges for handling shipments. Cartage will be charged for not merely on a basis of so much per day-load carried within certain roughly outlined distances, but will classify the goods they carry, charging more

or less according to classification, and will base their rates upon consideration of actual distances and the relation between the cubic measurement of a shipment and its weight. In some cases this will mean a saving of money to shipper and consignee, but in many others it spells increased cost. The new arrangement certainly means new inconveniences for the shipper, as he will have to treat with railway and cartage separately, and the consignee in the same way. Some shippers here try to make out that if the railways were under the old arrangement paying the carters a yearly subsidy, then they should now reduce freight rates by the amount of these annual subsidies distributed equitably over the year's traffic. The railways only smile in reply to this.

As a matter of fact, however, it is apparently the railway companies that are to be hardest hit by the new arrangement, unless, as is hinted in some quarters, they are getting some secret benefit from the arrangement. Apparently, however, it means that the roads will be largely at the mercy of the big cartage concerns for their business. If they do not provide convenient terminal facilities for the carters to dispose of their loads quickly and easily, the carters will tend to throw traffic to the road that gives them the best treatment in this respect. The cartage companies will no longer take the responsibility for collecting accounts; the railways will have to increase their clerical machinery for handling accounts, especially small ones. It will be in the interest of the cartage concerns to dump their loads as quickly as possible at some general receiving door in the freight shed, instead of distributing the loads at the doors nearest the cars upon which various parts of the loads will have to be placed. In other words, it will take the railways longer to handle the goods. On the other hand, in clearing their yards of incoming freight the roads will again be more or less at the mercy of the carters, for whereas now they co-operate with the forwarding carters to help clear the cars, it will, after the first of the year, be to the interest of the cartage concerns to pick and choose their goods to suit themselves.

The new system has long been in operation in the United States and has been satisfactory there. But they have better freight terminals there and more railways; competition is more keen. Without these factors in Canada, the new system may not work out as well.

Certainly it means trade dislocation or confusion for the first few weeks of the new year.

General W. Bramwell Booth.

The new head of the Salvation Army, General Bramwell Booth, arrived in Toronto last Saturday afternoon on a special train to become acquainted with his Canadian followers and to allow them to become acquainted with him. This Saturday he is in Winnipeg, leaving in a few days for Chicago and thence for New York again. He will not have time this year to go further west, though it has been announced here that he will do so next year, when he expects to cross the Atlantic again.

Bramwell Booth is fifty-six years old, but he looks like seventy. He has the gentleness of his father without the hint of vigor which underlay the old General's character. Bramwell Booth does not impress the observer as being a particularly brilliant man, nor a man of great energy or firm intentions. The first impression of the man is one of softness, of kindness, of extreme delicacy, the face almost of a saint, with just a hint of a womanish quality in it somewhere. He has no platform presence, to be compared with that of his late father, but he has a personality which is tremendously effective at short range. Gentleness, kindness, serene faith in the goodness of an all-wise Creator, and a resignation to whatever burdens may be appointed to him to bear, emanate from Bramwell Booth's person as rays of light. In fact, the only way to describe him is to liken him to a lamp burning softly, casting an agreeable effulgence about it, a sort of good cheer and warmth which penetrates the hardest exterior and sets the heart glowing.

Yet such ideas of the man are not wholly right. He is not a mere personality. Though he may not appear to be so, he is a force. It was he, according to certain officers who have lived very close both to the old General and his successor, who was for many years the executive head of the Salvation Army. He it was who, when the old General was making speeches and keeping up his end of the work, was working obscurely down in the very bowels of the organization, attending to the machinery of administration, that all the parts worked properly, and providing for the addition of new parts.

He was born in Halifax, in England, nine years before his father ever thought of the Salvation Army. Booth Senior was then a Methodist clergyman. The boy, along with the other members of the family, went up to London, where the father took a chapel in a very poor and now very famous part of London. Bramwell Booth went to the City of London School and was in the Lower School at the same time that Premier Asquith was in the Upper School. At fifteen he was given his first work in the Salvation Army, which was—cleaning out ink-pots in the office which his father had taken.

While Bramwell Booth came to America and even his sister Eva went on long foreign tours, Bramwell Booth stayed at home with his father. He had contracted a deafness due to the use of his voice, as a lad, in open-air meetings, and this added to a natural shyness which he had always had. He remained close to the old General, and as the originator of the movement grew less able to carry the burdens of his organization, Bramwell Booth transferred them to his own shoulders.

His reception in Toronto was remarkable. It was evident shortly after his arrival that his success with the people would be quite as great if not greater than that of his father. When the news spread through "the Army" that the "General's" first concern on getting to Toronto was to be taken to the bedside of the local commissioner, for whose recovery from ill health grave fears were at the time felt, they said: "It is indeed the old General's son." The affection and loyalty with which he was everywhere received was touching. Not only Salvation Army people, but Torontonians generally, turned out, before he had been long in the city, to do honor to him. But nothing seemed to overcome the innate gentleness and modesty of the man.

EAT CABBAGE, FISH
SAUSAGE, NEW BREAD

"Pape's Diapiesin" digests
food when stomach can't—
Cures Indigestion

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapiesin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered, you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapiesin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, or any stomach disorder.

1104 GOVERNMENT STREET, NEAR FORT

ROMANCE OF A
\$50,000 MASTERPIECE

Its Discovery in London; Church
Treasure Substituted by a
Clever Fake

London, Nov. 8.—The theft of Pinturicchio's famous painting of the Madonna and the Child, now safely lying in the strong-room of the Italian embassy in London, was discovered in remarkable circumstances, such as would delight even the most jaded reader of detective stories.

The plot had been so carefully laid that the theft might have remained undetected for weeks, but the providential eagerness displayed by two English gentlemen to scan every feature of the masterpiece led swiftly to the undoing of the thieves.

The two gentlemen who unconsciously became the del ex machina of this strange romance are now touring Italy. They entered the parish church of Santa Maria Maggiore at Spello, in "green Umbria," and were being shown the panel of the "Madonna and the Child," when they complained that the church was insufficiently lighted.

An obliging verger promptly produced a mirror, and, by skillfully handling it near a window, projected a stream of light on the picture. A moment later, to the amazement of the tourists, he ran off with a shout of consternation, returning presently with a powerful lamp, by the aid of which he inspected the painting inch by inch.

Still he would not believe the evidence of his own eyes, and, followed by the two English gentlemen, he sought the advice of two local artists, who scanned the picture for a long time and finally pronounced it a fake. The mayor of the town was called in, and caused a telegram to be sent to the Inspector of Umbrian Monuments at Perugia. By this time the news had spread, and the little Italian township was all agog with excitement.

A Wonderful Fake.

The government inspector arrived a few hours later and did not conceal his surprise at the marvellous cleverness of the unknown faker. The painting had been copied even to the cracks, and the red seal of state on the frame had also been reproduced to perfection.

Only the experienced eyes of the old verger, who had seen the painting every day for the last thirty years, could have detected the substitution. Now the most urgent thing to do was to ascertain how long the precious

panel, worth at least £10,000, had been stolen. The inspector was soon satisfied that the theft could not have happened without the knowledge of the curate of the parish church, to whom he put the following questions: "Who stole the picture? When was it stolen? Where is it now?"

The priest dared not conceal the truth any longer. He confessed, in fact, that the picture had been taken from its frame on the previous day, and was now in the hands of Marquis Barnabo, a well-known art dealer, to whom he had agreed to lend it for two or three days only.

The priest asserted that he had acted in good faith, which apparently had not been shaken by the fact that a painter (whose name he would not disclose) had spent several months in taking sketches and photographs of the picture, finally producing a perfect copy of it. However, the priest was arrested, and the inspector proceeded to Florence overnight.

A small army of policemen stormed the railway station at Florence one Sunday morning to look for the vanished masterpiece, but the search appeared hopeless, when a detective called at the Hotel de la Gare, where Marquis Barnabo was staying. "Tell the marquis," he said to the valet, "that a friend wants to see him. No name is necessary." Presently Marquis Barnabo was heard asking his valet, with a puzzled voice: "Why will he not give his name? Is he a tall dark man?"

This was enough for the detective, who burst into the room, told the Marquis who he was, and then charged him with the theft of Pinturicchio's picture. The marquis stoutly denied the indictment, but was taken to the police station, the detective remaining at the hotel. He had not long to wait, for a few minutes later a tall dark man called and asked to see the marquis. He was arrested forthwith and submitted to a long cross-examination, in the course of which he confessed that the painting was stolen and hidden in a yellow leather travelling bag, specially made to fit the panel.

The bag had been sent to London filled with old linen, to hide the doubt-bottom, where the panel was encased. Pressed further by the detectives, the man was allowed to telephone his wife, who came at once to the police station and produced a copy of the registration ticket attached to the bag.

London Episode.
This accomplished proved to be an Italian sculptor, who has lived in London for some time. The bag was, no doubt, to be claimed at Charing Cross station by one of his London associates.

The episode of the romance is now well known. The contents of the regis-

tration ticket were wired to the Italian embassy in London, who at once communicated with Scotland Yard, and the bag was seized on arrival at Charing Cross, where it was opened in the presence of the Italian consul-general. The picture was identified by the director of the Milan Synagogue of Beora, an expert who is now by a lucky chance on a visit to London.

The picture was then handed over to the Italian consul, who transferred it to the Italian embassy. The bag was sealed and left in the luggage-room at Charing Cross, and it may safely be predicted that nobody will ever claim it. An expert is coming over from Italy to take possession of the stolen masterpiece, which will soon be restored to the parish church of Spello. So far, all endeavors to trace the man who painted the faked panel have failed.

BEWARE
YOUNG MAN

It's the Little Dandruff Germs
That Are Causing Your Hair
to Thin Out

Parisian Sage Stops Falling
Hair and Does Not Contain
Poisonous Lead or Dyes

The clever young man of to-day doesn't take any chances on losing his hair. A man who is baldheaded at 30 looks like 45, and is placed at a disadvantage when seeking employment.

If you have dandruff, it means down near the roots of your hair an army of dandruff germs are attacking the hair root and destroying its vitality. Their hair falls out; grows thin and baldness results. Young man, put your faith in the delightful PARISIAN SAGE, it will stop falling hair, kill dandruff germs, abolish dandruff and itching scalp, or money back.

PARISIAN SAGE is only 60 cents a bottle at D. E. Campbell's, and dealers everywhere. Girl with Auburn Hair, on every carton. Ask for PARISIAN SAGE.

For Goodness Sake—have some comfort in your living apartments this winter. If you own a house you can make sure of the heating yourself; but if you're a roomer, pick out the real, home-like, comfortable hotel, at \$4 to \$6. "The Kaiserhof."

PEMBERTON & SON

\$25,000 Home for \$17,000

NEW 11-ROOMED HOUSE ON ONE-THIRD ACRE

This house is modern in every detail, and we have rarely seen richer finish. It is finished with hardwood floors, beam ceilings, bookcases, paneled walls, hot water heating, finished basement, fine wide balcony and veranda. The owner is leaving the city and is sacrificing this property for that reason. (No. 888)

\$7,500

NEW 6-ROOMED MODERN HOUSE

Hardwood floors, paneled walls and ceilings, built-in sideboard, bookcases, cosy corners, etc.; cement floor basement with furnace. This lot is easily worth \$5000, and the house could not be built for less than \$3500 to \$4000. (No. 70)

\$600 Cash and Balance to Suit

\$7,500

NEW 6-ROOMED MODERN HOUSE

Like the other, but in addition there is a good garage, with cement floor; half block from the cars. Terms will be arranged to suit. (No. 220)

You are looking for a house. One of these may suit you; if not, let us show you some of the others on our lists. We specialize in houses at this time of year. Call or ring us up to-morrow morning.

1007 Government St.

TO-DAY IN CANADIAN HISTORY

An entry—dated November 10, 1827—in an old journal kept at the Hudson's Bay fort at Stuart Lake, in British Columbia, gives an interesting glimpse into the kind of life led by the officers of the company. In this particular case the man into whose life we are glancing is no less a person than the future governor of Vancouver and British Columbia—James Douglas. This energetic young fellow of twenty-four was on the point of being sent to establish a new fishery at Petit Lac, and also to collect fish from the Indians in exchange for leather and other articles of trade. He set out with five men, well provided with nets, having eight of small thread, three of willow, and four of Holland twine. A number of dogs were taken also. The provision of a constant supply of food at the isolated trading-posts was a most important and often arduous task, and for at least half a dozen years Douglas was busy for much of his time either superintending the catching of the fish, or hauling it on dog-sledges to the larger post. It was a life of incessant toil and hardship even for the officers.

Sir John Sparrow David Thompson, who will live in history as one of the most eminent of Canadian jurists, was born at Halifax sixty-nine years ago to-day. He was educated at the Free Church Academy in his native city, and at twenty-one was called to the bar. From 1877 to 1882 he was a member of the Nova Scotia assembly and of the executive council, and attorney-general of the province, afterward becoming judge of the supreme court, and in 1885 attorney-general of Canada and the United States in 1885, and was the representative of Canadian interests at the Behring Sea arbitration in Paris, 1893. In the latter year he became prime minister of the Dominion. He was knighted in 1888. In 1894 he visited England, and had just paid his respects to the Queen when he was fatally stricken, and died on December 12. England honored him as a great man, and his remains were brought to Canada for burial in a warship. Sir John was one of Nova Scotia's most illustrious sons, great alike as jurist and statesman. All Canadians, regardless of party, mourned his sudden and untimely death.

November 10 is the anniversary of the wreck of H. M. frigate *Atlanta*, off the coast of Nova Scotia, just a century ago, November 10, 1813. Three years later, to a day, the transport *Harpoon* went down near the Newfoundland coast, and about 200 persons were drowned. On the night of November 10 a century ago Gen. Boyd, one of the officers of Gen. Wilkinson's expedition for the capture of Montreal,

CHILDREN HATE OIL, CALOMEL AND PILLS

"California Syrup of Figs" Best for Tender Stomach, Liver, Bowels

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicate "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given to-day saves a sick child to-morrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

son, the Rev. Tertius Van Dyke, was ordained this year, and the answer he gave to certain theological questions gave rise to talk of a heresy trial. Dr. Van Dyke vigorously defended the views of his son.

BEING PULLED DOWN.

Old Victoria Landmark Razed to the Ground—New Structure to Replace It.

Another of Victoria's oldest landmarks is disappearing this week, being razed to the ground to make way for newer and more up-to-date premises. This is the Windsor Hotel, at the corner of Courtney and Government streets, which is the oldest hotel in Victoria and originally existed under the name of the Victoria Hotel.

The property is owned by Stephen Jones, the proprietor of the Dominion Hotel, and it is understood that work on the erection of another and more commodious structure will be commenced at very early notice.

The announcement, which was made by Mr. Jones, was made at a meeting of the Dominion Hotel Company, held at the hotel on Saturday afternoon.

The meeting was held at the hotel on Saturday afternoon, and was attended by Mr. Jones, Mr. C. F. Campbell (nee Fetherston) who will receive at her home, 119 Wildwood avenue, Fowl Bay, on Wednesday, November 12, from 3 till 6 p. m., and the third Wednesday thereafter.

David Pottinger, formerly superintendent of the Intercolonial Railway, who with Mrs. Pottinger arrived about ten days ago from Moncton, N. B., left last Thursday for California. During their visit in Victoria they were guests at the Empress hotel.

A marriage was quietly celebrated at the St. Andrew's Presbyterian manse last Thursday evening when Rev. Dr. Clay united in marriage Robert Henry Brydon, of this city, and Miss Nancy McGee, who recently arrived from Glasgow.

About sixty-five couples were present at the social and dance given on Friday evening at St. John's hall by the Sons and Daughters of St. George.

An excellent programme of dances was supplied by Mrs. Ridgard's orchestra, and during the evening delicious refreshments were served.

TOO LATE TO CLASSIFY

DIED. SUTHERLAND—On the 7th Nov., 1913, at St. Joseph's hospital, after a short illness, Helen, only daughter of Mr. and Mrs. R. Ross Sutherland, of "Kildonan," Fowl Bay road, aged 54 years. n27

NOTICE. NOTICE is hereby given that thirty days after date an application will be made to the Board of License Commissioners for the Municipality of Victoria, B. C., for permission to change the license now held by me and known as the Jubilee Saloon to the Jubilee Hotel at the same location, according to the Municipal Act, to take effect on January 14, 1914. Dated at Victoria, B. C., November 10, 1913. ROBERT CHADWICK. n28

FUTURE OF CONTRACTS WAITED ON DECISION

Council Will Consider Waterworks; Last Day for Graff Company to Qualify.

Most important of the business which will reach the city council with regard to the conduct of the waterworks undertaking, when the session resumes this evening, will be the report of City Solicitor Robertson embodying the judgment of Mr. Justice Murphy on the McDonald action to determine the powers of the water commissioner in the award of contracts.

The majority of the council will welcome the decision, as it clears the air. Whether there will be an appeal or not is another matter. Mr. McDonald, the plaintiff, said this afternoon that he had not yet consulted with his solicitor on the subject.

The council, however, is now empowered to take the action suggested in the earlier debates on the subject, to call for new tenders for the riveted steel pipe and the telephone wires, and to award the contract to the Graff Construction Company for the concrete flow line, provided it has proved up to-day its capacity to undertake the work. If the report of the water commissioner and the consulting engineer is favorable to that company, then the contract automatically goes to it under the resolution, but if not the original recommendation of these two officials is approved, suggesting the Pacific Lock Joint Company, then that concern will be the contractors specified, the commencement of the work depending upon the ability of the city to finance the undertaking, the contract, of course, being subject to that proviso.

Apart from waterworks matters two by-laws for fixing civic salaries, for the amendment of the building by-law have been waiting for consideration, and there is also the by-law to amend the budget issue, all of which have been placed on one side for consideration to be given to the waterworks issue. There is also a considerable amount of routine business awaiting attention.

CONFIRMS TRANSACTION.

Vancouver Manager of W. J. Pendray & Sons Admits Sale to Lever Brothers.

The Vancouver News-Advertiser of Sunday has the following to say:

"The announcement of the purchase of the controlling interest in the soap and manufacturing department of the business of Messrs. W. J. Pendray & Company, of Victoria, with branches in Vancouver, Calgary and Edmonton, was confirmed yesterday by H. H. Welch, the local manager of the Pendray enterprise, who stated that the soap formerly known as the B. C. Soap Works, was established thirty-eight years ago and is the oldest soap-manufacturing business in the Dominion.

The acquisition by Lever Brothers is in line with the ambition of that famous firm to have branches in most of the big cities in Canada and elsewhere throughout the world. The Vancouver branch will be carried on along present lines. The deal was put through during the recent visit to the coast of Sir William Lever, M. P., and his Canadian manager, A. C. Knight, of Toronto. It is understood the cash consideration involved is about \$150,000.

BANKERS' TRUST CASE.

Three Witnesses Heard This Morning in the Second Trial of Cook and Hearn.

The Bankers' Trust case was resumed this morning, when the evidence of Robert Hetherington and Joseph H. Baker was again taken. There was no difference in it except that both direct and cross-examination was much shorter than during the first trial.

W. J. Sloan, who had been manager of the office of the Bankers' Trust Company in Prince Rupert, spoke of conversations he had had with Cook and Hearn in the office of the Newtators, Limited, in Vancouver. Cook told him of the dividends and bonus paid and of the financial standing of the corporation. The witness identified a number of letters he had been shown from shareholders, including Cook, A. G. Sargison, E. W. Whittington, L. D. Taylor, Vancouver; J. H. Senkler, K. C., Vancouver; and James Hoppe.

Another was from Godfrey Booth, stating the conditions on which he was resigning from the general management of the Northern-Crown Bank to accept the management of the Bankers' Trust. Mr. Booth wrote that it was his full and explicit understanding that he was to have absolute control of all financial operations. He saw a great future for the corporation in this city under conservative management and without any speculative operations.

Mr. Sloan said that on April 3 he took over the Titles Holding Company, realizing that if it could be saved it would go far to save the Bankers' Trust. He remained in charge of it until the end of August. The value of its stock, then, he said, was very little, and at the time the value of the Anglo-Canadian Timber Company's bonds which it held was practically nil, as its timber licenses had not been renewed and there was some fear that they might not be.

DIES OF EXCITEMENT.

St. Louis, Mo., Nov. 10.—Overwrought by the excitement of a soccer football game at which he was cheer leader, Ramon Garcia, a Spaniard, fainted while watching the game here yesterday afternoon and died a few minutes later.

BALLOT NOW BEING TAKEN ON INVITATION

Canadian Society of Civil Engineers Requested to Hold Annual Meeting Here

The Canadian Society of Civil Engineers will meet here in January instead of in Montreal if the verdict of the ballots now being sent out to members is favorable.

This organization is one of the most important professional bodies in the Dominion and includes in its membership some of the leading men in the country. Some two months ago the Victoria branch of the society invited the members to transfer the meeting to Victoria, and as a result the gathering had been held so often in the leading eastern centres that a change would be good for the officers of the association and would familiarize them with the development of the west.

President F. C. Gamble and Secretary R. W. McIntyre took the matter up with headquarters and as a result the ballot is now being taken among the members. The local society has been promised considerable support from the members in the western provinces. If the society determines to come west it will bring a number of influential people here and some large hall will be engaged for the accommodation.

City Engineer Rust, who is a past president of the society, hopes to give his support to the movement if he can get away after Christmas to attend the session in New York of the American society, of which he is also a member.

The Victoria society will hold its annual meeting early in December and the provincial meeting, which this year goes to Vancouver, will follow soon afterwards. The promised legislation over the incorporation of the British Columbia members as a corporate body will be taken up with a view to obtaining legislation at the next session of the house.

Local officials are very hopeful of getting the Dominion meeting because it would focus attention on a profession which is working under considerable difficulties in this province.

ASSEMBLING PLANT

First Portion of Plant for Northwest Sewer is Taken on Ground To-day.

The first signs of the work on the northwest sewer were discernible to-day when sewer plant was moved to Dunsmuir street, Esquimalt, and put on the ground in order that the actual construction may be commenced in a few days.

This course is in conformity with the resolution of the council on Thursday to make a start on this trunk sewer immediately, without waiting for the expressed attitude of Saanich ratepayers at the polls. Some changes have been effected in the plans for the purpose of economy. Mr. Rust explained to the council that some land belonging to the Puget Sound Agricultural Society, the holding company of the Hudson's Bay Company, had yet to be secured and the scheme had still to be approved by the London directors.

Otherwise with the exception of a small amount of right-of-way still required, there is nothing to hinder an immediate start. The actual dimensions of the tunnel are independent of the decision of Saanich to come into the scheme.

No one doubts that the by-law will have an overwhelming support.

FAREWELL BALL GAME TO CONVICT NO. 6092

Sacramento, Cal., Nov. 10.—Folsom penitentiary convict defeated Christian Brothers' College of Sacramento, 2 to 1 in a baseball game played at the penitentiary Saturday. It was said to be the first game ever played between a penitentiary team and one from the outside world in California.

Convict No. 6092 pitched effectively for Folsom, and his work was cheered by 1,100 of his fellows. It was his farewell appearance, as he is about to be paroled.

"The convicts forgot all regrets and sorrows of the past, all the fears and doubts of the future," said Warden Johnson in describing the circumstances of the game.

AMERICAN RUGBY

At New Haven—Yale, 17; Brown, 6.

At Albany, Ore.—University of Oregon, 10; Oregon Agricultural College, 10. (Tie game).

At Princeton, N. J.—Harvard, 3; Princeton, 8.

At Ithaca, N. Y.—Michigan, 17; Cornell, 6.

At Syracuse, N. Y.—Syracuse, 6; New York University, 9.

At Annapolis, Md.—Navy, 70; Bucknell, 7.

At Evanston, Ill.—Chicago, 14; Northwestern, 6.

At Baltimore—Carlisle Indians, 21; Johns Hopkins University, 9.

Tacoma—Stadium High School, 6; Everett High School, 6.

Hoquiam—Hoquiam High, 13; Ballard High, 7.

Pullman—Washington State College, 23; Whitman, 9.

Portland, Ore.—Washington High, 27; Lewis and Clark (Spokane), 8.

At North Yakima—North Yakima, 14; Sunnyside, 6.

At Tappanish—Tappanish, 27; Ellensburg, 7.

SOLDIERS IN DANGER.

Berlin, Nov. 10.—A dispatch from Lisbon says the wireless station there to-day received distress signals from the German steamer Rhenania, off Vigo, Spain. The steamer has 300 German soldiers on board bound for German East Africa.

LOCAL NEWS

The Abel Trial.—The hearing of the action of F. R. Abel, provision merchant, Gorge road, against the city for losses through the delayed improvement of the Gorge road, is due to come up on Wednesday.

Building Permits.—Building permits were issued to-day for the following residences: Mrs. E. B. McLean, five-room house at 1535 North Dairy road, costing \$1900; Mrs. C. N. Williams, for a six-room house at Selkirk avenue, costing \$2,000.

Watching For Plague.—The city health department is keeping a close eye on the vessels arriving from the Orient and from Puget Sound, looking for the arrival of plague-infected rats. Each day one or more steamers are under supervision.

J. G. Turfitt, M. P. Here.—J. G. Turfitt, M. P. for Assiniboia since 1904, spent the week-end in the city with his wife. Mr. Turfitt, who is regarded as one of the best debaters in the Dominion House, has been somewhat ill, but is now happily recovered and leaves Victoria for the east this afternoon.

Held Services.—Yesterday morning the first of the 11 o'clock services were held at Esquimalt Presbyterian church, Harriet road, which will hold services regularly every Sunday morning in addition to the Sunday evening services at 7

**LORD MAYOR'S SHOW
ON IN LONDON TO-DAY**

London, Nov. 10.—Sir T. Van Sittart Bowater was to-day installed lord mayor of the city of London with all the solemnity and display that ancient custom demands. The oath was administered by the new lord chief justice, Sir Rufus Isaacs.

"The lord mayor's show," was a reproduction of the show of just 300 years ago. It was called the "triumph of time," and included a number of curious old floats and detachments of soldiers and sailors in the uniforms of the period of Waterloo and Trafalgar.

CANADIAN DEBENTURES.

London, Nov. 10.—Following are the quotations of active Dominion, provincial and municipal debentures:
Dominion of Canada, 1904-34, 3 1/2 per cent., 80-81; province of Alberta, ten-year debentures, 1922-32, 4 1/2 per cent., 92-93; province of Ontario, 1904-34, 4 1/2 per cent., 92-93; Montreal, 1903, 3 1/2 per cent., 84-85; Toronto, 1903-20, 5 per cent., 100-102; Winnipeg, 1904, 5 per cent., 92-93.

HUBERT

the new city on the main line of the G. T. P. Railway in
**CENTRAL
BRITISH COLUMBIA**

is so strategically located that it is in the centre of and commands the trade of the wonderfully rich and proven agricultural lands in the famous

BULKLEY VALLEY and also the surrounding mining districts.

All other cities and towns in the Bulkley Valley will be tributary to HUBERT. All branch lines from the main line of railway will start from HUBERT.

The townsite is ideally located. A bend of the Bulkley River and is free from swamps and bog, with magnificent natural drainage.

The first offering of town lots is now open to the public.

HUBERT has behind it the same organization, the same systematic development, the same liberal advertising that placed

FORT GEORGE on the map and kept it there. Trains are now running to HUBERT, and the G. T. P. Station is built.

Write or call for maps, plans and photos.

**Stocks Declined In Leisurely Fashion
Demand Issued From Short Element but Otherwise Support Meagre**

(By F. W. Stevenson & Co.)
New York, Nov. 10.—The stock list continued to decline in leisurely fashion and was a decided weak appearance, and as for was irregular and nervous as recently. Fair demand issued from the short element which is used in part to check depreciation, but aside from that support tendered was of a meagre order.

There was little news relative to affairs in Mexico but it is nevertheless generally realized that conditions there are critical and closely to be watched.

A world-wide lack of confidence in financial circles is having a pronounced influence everywhere on stock market sentiment and is being reflected by liquidation and wholesale adjustments in security values.

Locally, there is still need of definite news from the Portland Tunnel campaign to what has been accomplished to date and hesitancy noted in the share concerned seems largely due to indecision in the outlook.

Portland Canal Made Fractional Gain but Tunnel News Awaited

Victoria, Nov. 10.—The list gave a fair account of itself, levels in all cases being firmly maintained and in not a few instances moderate advances being scored.

Portland Canal and Glacier both were strong, the former making a fractional gain and both issues closing with lean offerings.

Genuine snap pertained to McGillivray Creek, a stock generally noted for conservative action confined within a narrow range.

The company's report to hand makes a favorable showing and has induced some buying support in the shares.

Granby was debilitated, suffering from the damping influence of perturbed sentiment in American quarters, where security values still pursue the slumping trend.

REFUSED INJUNCTION AGAINST THE CITY

Water Commissioner Declared to Be Only Agent of Council in All Matters

It was decided by Mr. Justice Murphy this morning that the water commissioner of the city of Victoria is not an independent representative of the body corporate of citizens, with supreme authority in the awarding of contracts for the construction of water works, but that he is the agent of the city council, and that the members of the city council, as the duly elected representatives of the citizens, have the right of approval or disapproval of all contracts.

When the judgment was delivered in chambers there were present the mayor, Water Commissioner Rust, City Solicitor Robertson and Ernest Miller, M. P. P., counsel for John A. McDonald, who as a ratepayer had applied for the injunction order.

His lordship in giving judgment said: "I have given the matter the best consideration I could, and I have come to the conclusion that the water commissioner is not, under the section of the Victoria Waterworks Act, 1873, cited by counsel for the plaintiff, the sole person in whose discretion the awarding of contracts lies. I think the city council has a right to advise. I come to that conclusion partly because of the form of the contract. I think the water commissioner is merely there as agent for the city of Victoria, that he represents the city of Victoria as being one of the parties to that contract.

"I further think so because to hold otherwise would be to hold that the city has entered into a contract it has no power to enter into. Under that clause, if the arguments of plaintiff's counsel were sound, the water commissioner would have unlimited power to finish the work, which might run into an immense sum and might commit the city to great cost. I must refuse the order."

WILL RESIDE HERE.

Miss Bada Louisa Ek and Mr. Thomas John Adeney United in Marriage.

An interesting wedding was quietly celebrated last Monday at the Congregational church, when Rev. Hermon Carson performed the ceremony of uniting in marriage Miss Bada Louisa Ek, lately arrived from Norrköping, Sweden, and Thomas John Adeney. The bride was very becomingly attired in white, with white hat to match, and was attended by a daintily dressed little bridesmaid, Miss Margaret Keln, whose father, Mr. Keln, gave away the bride. The bridegroom is a nephew of Rev. Dr. Adeney, of Manchester, who recently visited Victoria in connection with the Theological Conference which was held here. Mr. and Mrs. Adeney will make their home here.

A sixty-ton vessel, with 12 men, can carry on an average 4000 in a season of cod fishing.

SCOUTS REVIEWED

Lieutenant-Governor Paterson Presents Prize Won During Year; Compliments Boys on Work.

An interesting line-up took place on Saturday afternoon at the Burns monument, Beacon Hill park, when his honor the Lieutenant-Governor presented the winning troops and patrols with the cups and challenge shield competed for during the last twelve months. Colonel Cunliffe conducted his honor round the ranks, which were drawn up in the form of a hollow square and at the conclusion of the inspection the cups were presented as follows:

To the 4th troop, Robertson-Andrews cup for the three and a half-mile relay race, won the third successive year, and, consequently, the property of the troop; also the W. E. Scott cup for swimming. To the 3rd troop, the Oscar Baw cup for shooting. Patrol Leader H. Brown, on behalf of Kangaroo patrol of his troop, went up to receive the Lieutenant-Governor's special congratulations on having won the challenge shield for the greatest increased efficiency out of all the Scouts on the Island. His Honor called attention to the keen nature of the competition, and mentioned the work of the patrol under the leadership of Patrol Leader R. E. Nash, which has fallen short by only one mark.

The seven troops present were the 3rd, under Scoutmaster H. R. Selfe; the 4th and 7th, under Scoutmaster F. M. Ward; the 8th, under Scoutmaster W. H. Johns; the 10th, under Scoutmaster M. Brinkman; the 11th, under Section Leader C. Frampton; and the 14th, under Captain R. V. Harvey. Eighty-four men were present with nine officers. Colonel Cunliffe expressed thanks to the Lieutenant-Governor on behalf of the Scouts, and three hearty cheers were given for his honor, the boys raising their caps, scout fashion, on their staves. A second cheer was given in honor of W. H. Wilkerson, who had presented the challenge shield.

CHAIRMAN REPLIES

Points Out That Board Had Approval of Ratepayers for High School Expenditures.

Referring to Charles Hayward's interview in the Colonist criticizing the expenditure of so large a sum on the new high school, Chairman Jay of the School Board stated this morning that he would take up the whole issue of school expenditures on the platform in the coming election, as he would probably be a candidate for re-election. Mr. Jay pointed out that the high school was practically completed and would be ready for occupation before the end of the year. The ratepayers had approved two by-laws authorizing the expenditure of the sum which Mr. Hayward criticized as extravagant and the board was merely carrying out the people's wishes.

It is said by some authorities that arctic wells have a daily succession of ebb and flow, like the ocean tides, only the process is reversed. The time of greatest flow of an arctic well is the period of low tide in the ocean.

ARBITRATION MUST NOW BE UNDERTAKEN

Canadian Northern Pacific Will Not Put Up Money Ordered for Saanich Lands

No arbitration went on to-day in the case of the Saanich lands which are wanted by the Canadian Northern Pacific Railway for its Patricia Bay line, although it had been understood that proceedings were to have commenced in regard to the property of three owners.

The amount fixed by Mr. Justice Murphy to be paid into court by the company, as a condition to giving it warrants of possession which would have enabled it to go on with the work alleged to be so urgent as to require the steps taken by it, has not been paid in.

The course now likely is that either the railway, if it is in earnest in the proceedings taken last week, when it was hotted to get the lands and was prepared to do anything to that end, or the owners, if they desire to force the company to take the lands it has asked for, will give six days' notice of an application for the appointment of a sole arbitrator or three arbitrators. The judge will then name an arbitrator, or a referee between the men named by the parties, if that is desired, and the usual course of an arbitration will proceed.

When the matter was mentioned in chambers to-day F. J. Stacpoole, K.C., counsel for C. W. Bradshaw, pointed out that the draft order as submitted to him by counsel for the railway dealt with the whole of the lots affected, although notice had been served only as to parts of them; that it only bound the company to a payment into court of \$32,000, and that no provision was made as to costs.

Edward Mayer, for the C. N. P. R., argued that the question of costs did not come in at present, as the company was not dropping proceedings in the case of these lots.

"You got your order on certain terms," his lordship pointed out; "that you paid in a certain amount, otherwise your application would be dismissed."

"You imposed conditions on the granting of that order which we might or might not fulfil."

As to the appointment of a third arbitrator, when that came up, Mr. Mayer said he had no instructions to go on at the moment.

Mr. Stacpoole retorted that it had been agreed on Tuesday that arbitrators should be appointed and that they returned on Wednesday to speak to the appointment of a third.

His lordship held that counsel could not be held to a statement made in the course of discussion.

His lordship, in closing the present proceedings so far as the court was concerned, said the parties would have to take the usual arbitration proceedings if they wished to continue. His order as to the costs of the application before the court would be that contemplated by the statute, that the company should pay them unless the award of the arbitrators was not greater than the company's offer. In the event of the company's dropping its proceedings to take these lands it will, of course, be liable to the owners for all costs incurred by them.

The interim injunction given on Friday, restraining the Canadian Northern Pacific Railway Company and its employees from entering upon the lands of the Saanich Bay Brick & Tile Company, was to-day made perpetual by the consent of the company, expressed by the consent of Mr. Mayer.

H. G. S. Heisterman, for the plaintiff

company, said he understood the railway officials claimed that the workmen had entered on the lands without any authority.

In the Roman Forum workmen have discovered a magnificent Greek fresco, executed by Byzantine-Greek artists about 800 A. D., representing the Crucifixion.

Mayoralty Contest

A meeting of supporters of

ALEX. STEWART

Candidate for Mayor, will be held Tuesday, Nov. 11, at 8 p.m., at the corner of Yates and Government streets, over Salmon's old stand, for organization purposes.

ROBERT MORRISON,
Secretary.

Mayoralty

At the request of a large number of citizens I have consented to be a candidate for the position of Mayor at the forthcoming Municipal Election.

Yours respectfully,
ALEX. STEWART.

As a rule, single women live longer than single men.

Oriental Rugs

—create in the home of the Anglo-Indian that atmosphere of India's mystic charm to which he is accustomed.

A ramble through our showrooms is a delight for the same reason. Drapes and Rugs from Bombay, Amritsar, Cawnpore, Thibet, Benares, attract the visitor from every angle. The rich softness underfoot allows him to pass in silence, or pause before some old favorite to admire its perfect beauty.

Does the lure of the East reach you? Bring in your friends and stroll among the gems of the East that you'll find here in profusion. Rugs and Drapes, Art Curios from every corner of the world. It'll be a pleasure to show them to you.

You can have Rugs made to order of any size, color, quality, at the looms in Jaipur that we control—and they'll cost you at least 25% less than anywhere else in Canada. You'll see a few choice pieces in our stock.

Poonjiajee Currie Powder and Chutney from Bombay and Madras come to us direct from Old Man Poonjiajee. You'll always get some here when you want it.
